Dear Ms. Rubin:

Terracon Consultants, Inc. (Terracon) is pleased to submit the enclosed Phase I Environmental Site Assessment (ESA) report for the above-referenced site. This assessment was performed in accordance with Task Order Request (TOR) No. 20-AISEHS-0002.

Terracon appreciates the opportunity to perform these services for you. Please contact us if you have questions regarding this information or if we can provide any other services.

Sincerely,
Terracon Consultants, Inc.

Jessica A. Donahoe
Staff Scientist

Rachelle K. Christian, P.G.
Environmental Department Manager

I, Rachelle K. Christian, declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in Section 312.10 of this part. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the All Appropriate Inquiries in conformance with the standards and practice set forth in 40 CFR Part 312.

Terracon Project #: A2217022B

EXECUTIVE SUMMARY

This Phase I Environmental Site Assessment (ESA) was performed in accordance with Task Order Request (TOR) No. 20-AISEHS-0002 and was conducted consistent with the procedures included in ASTM International (ASTM) E1527-13, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*. This Phase I ESA was conducted under the supervision or responsible charge of Rachele K. Christian, Environmental Professional. Salvatore Consalvi of Yung Environmental (Yung) performed the site reconnaissance on December 16, 2021.

A cursory summary of findings is provided below. It should be recognized that details were not included or fully developed in this section, and the report must be read in its entirety for a comprehensive understanding of the items contained herein.

§ The site consists of seventeen contiguous parcels totaling approximately 6.04 acres or 263,101 square feet (sq. ft.) of vacant land. The site encompasses the following:

Site PIN	Site Addresses	Acreage (sq. ft.)	Notes
25-22-300-005	11517 S State Street	19,293	West parcels (along South State Street)
25-22-300-006	11525 S State Street	8,848	
25-22-300-007	11527 S State Street	19,912	
25-22-300-019	11562 S Wabash Avenue*	26,344	SW parcel (north & south of railroad tracks)
25-22-300-063	11516 S Michigan Avenue	26,011	Northeast parcel
25-22-300-038	11516 S Michigan Avenue	3,316	East parcels (along South Michigan Avenue)
25-22-300-039	11516 S Michigan Avenue	5,550	
25-22-300-040	11528 S Michigan Avenue	8,938	
25-22-300-041	11526 S Michigan Avenue	18,061	
25-22-300-042	11530 S Michigan Avenue	9,123	
25-22-300-043	11534 S Michigan Avenue	20,212	
25-22-300-053	11542 S Michigan Avenue	3,077	
25-22-300-068	11552 S Michigan Avenue	36,108	

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

Site PIN	Site Addresses	Acreage (sq. ft.)	Notes
25-22-300-058	11578 S Michigan Ave	18,739	SW parcel (north & south of railroad tracks)
25-22-300-031	25 E 115 th St	4,560	North parcels (along East 115 th Street)
25-22-300-032	29 E 115 th St	4,062	
25-22-300-033	31 E 115 th St	4,603	
		Total: 263,101 sq. ft. or 6.04 acres	

*The Cook County GIS indicated the address as 11562 S State Street; however, the correct address provided by the client was 11562 South Wabash Avenue.

Some addresses have changed over the years. Historical addresses were identified for some of the parcels. Refer to Section 3.4 for a summary of historical addresses.

- § Historically, the west parcels (along South State Street) appeared occupied by dwellings, a hay & feed store, and coal/wood sheds by 1897; however, based on the topographic maps, the area appeared as an urban development by at least 1892. In 1911, dwellings occupied the northwest parcels. From at least 1931 until 1951 a filling/service station occupied the northwest portion of the site. The Reading Co. Coal Yard, a large coal storage operation with rail spurs, was indicated on the southwest and south-central portions of the site from at least 1911 to the 1940s with the former coal storage buildings noted as dilapidated and vacant by 1950. From 1959 until 2005-2006, the west parcels were improved with a parking lot and industrial building occupied by food and tea operations. The west portion of the site has appeared as vacant land and/or paved parking lot from 2007 to the present.
- § Historically, the north parcels (along East 115th Street) appeared occupied by dwellings and retail structures from at least 1897 until the 1920s; however, based on the topographic maps, the area appeared as an urban development by at least 1892. From the 1930s to the 2000s, the north parcels were occupied by mixed residential and retail/commercial structures and have appeared as vacant land with remnant building foundations from 2007 to the present.
- § Historically, the northeast parcel (southwest corner of East 115th Street and South Michigan Avenue) appeared occupied by dwellings and retail structures from at least 1897 until 1951; however, based on the topographic maps, the area appeared as an urban development by at least 1892. From 1959 to the 2000s, the northeast parcel was occupied by a retail strip mall with various occupants including a dry cleaner operation (from 1966 to 2005). The parcel has appeared as vacant land with remnant building foundations and parking lot from 2007 to the present.

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

- § Historically, the east parcels (along South Michigan Avenue) appeared occupied by dwellings, retail stores, a church, and lumber yard by at least 1897; however, based on the topographic maps, the area appeared as an urban development by at least 1892. By 1911, the east parcels were developed with a dwelling, office, retail stores, a school, a church, and lumberyard with portions of the Reading Co. Coal operation on the west portion of the parcels. By 1939, the school and church were no longer apparent and an auto garage was noted. By the 1950s, parcels were occupied by a dwelling, retail stores, an auto garage, lumber yard, and portion of the vacant, dilapidated coal operation buildings. By 1959 to the 1980s, a portion of the retail strip mall, parking lot, a commercial/industrial building, and lumber yard occupied the east parcels. From the late 1980s until 2005-2006, the east parcels were improved with a portion of the retail strip mall which included a dry cleaning operation (1966-2005), parking lot, a multi-unit commercial building, and restaurant structure. The east parcels have appeared as vacant land with remnant building foundations and parking lot remnants from 2007 to the present.
- § Historically, the two portions of the south parcels (south of the railroad tracks) appeared as vacant land and/or heavily vegetated land from at least 1897 to the present.
- § The following on-site recognized environmental conditions (RECs) were identified during the historical documentation review:
 - The on-site property (Oak Park National Bank at 11500 South Michigan Avenue) was identified on the regulatory database. Based on a review of historical resources, this appears to refer to a historical retail building which is no longer present on the site. City directories indicated the property was occupied by a drug store from the 1920 until 1999 and then by the house of Peace Book store. The Chicago Department of Public Health (CDPH) database records indicated the May 28, 1958 installation of two 315-gallon, one 1,000-gallon, one 2,000-gallon (with enclosure), and five 315-gallon fuel oil underground storage tanks (USTs), and the March 18, 1959 installation one 2,000-gallon and five 300-gallon fuel oil tanks (final n/g). It is possible that the five 315-gallon and five 300-gallon fuel oil USTs refer to the same tanks. A February 1, 2000 inspection noted that “oil tank reported in the basement”; however, the inspector indicated that he did not see an oil tank in the “entire basement”. The prior 2004 Phase I ESA, conducted prior to the demolition of the former retail strip mall, reported several suspect fill and vent pipes along the exterior rear (west and north) sides of the building; the suspect pipe locations are described in detail in Section 3.6. Records of USTs removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. The absence of reported removal records indicates the potential for up to ten orphan USTs remaining on the site which is considered a REC to the site.

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

- The on-site historical cleaner (addressed as 11518 South Michigan Avenue) was identified in the regulatory databases. The facility was occupied by Flair Cleaners (1966-1976), Rose Plaza Launderette (1976-1981), Betty Brite Cleaners (1981 - 1997), Automatic Washboard Coin Op (1994-1999), Cleaners & Laundry (1999), and Lee Cleaners & Laundry (1999). According to the prior 2004 ESA, the dry cleaner was still operating in 2004. Betty Brite Cleaners was identified as a Resource Conservation and Recovery Act (RCRA) Very Small or Conditionally Exempt Small Quantity Generator (RCRA-VSQG/CESQG) facility, generating less than 100 kilograms (kg) of tetrachloroethylene (PCE) and trichloroethylene (TCE) during any calendar month and accumulating less than 100 kg of PCE and TCE at any time. The EDR report did not indicate violations for the site; however, as discussed in Section 4.2.1, the CDPH records indicated that the former dry cleaners had been previously inspected for reported dumping of the chemicals into the sewers; the inspector did not report findings that indicated the violation. He further reported the presence of storage of perchloroethylene (PERC) at the facility. The prior 2004 Phase I ESA reported poor housekeeping conditions at the dry cleaning facility, which was in operation in 2004. Based on the known presence of historical dry cleaning operations with use of chlorinated solvents, and duration of operations (at least 38 years), the historical on-site cleaner constitutes a REC to the site.
- A gasoline tank was indicated south of the retail/residential structures at 25 East 115th Street on the 1939 to 1950 Sanborn Maps on the north portion of the site. Records of the UST installation and/or removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. This is considered a REC to the site.
- The historical on-site business (Asdooraian Danl at 25 East 115th Street) was identified as a historical carpet cleaners and layers in 1928 in the regulatory database and identified as Asdooraian Danl rug cleaner in the 1928 city directory. The building was identified on the 1897 to 2004 Sanborn maps as a store/retail building. Based on the potential usage of chlorinated solvents, the former on-site Danl Asdooraian cleaners constitutes a REC.
- A door and sash factory, located at 11546 S Michigan Avenue, was indicated on the southeast portion of the site in the 1950 Sanborn Map. The historical on-site manufacturing operations are considered a REC to the site.
- An auto body repair & paint facility (11520-11524 S Michigan Avenue) was identified on the 1939 and 1950 Sanborn Maps. The city directories for 11522 South Michigan Avenue listed Rosser Wm auto body repair (1941), Al's Garage (1941), and S&T Repair Service (1947). The on-site historical auto repair

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

operations, potentially utilizing petroleum products, during their on-site operation for at least 11 years, are considered a REC to the site.

- A filling/service station (11521 South State Street) with three gasoline tanks was indicated on the northwest portion of the site along South State Street on the 1939 to 1950 Sanborn Maps; service station listings were also identified in the city directories from 1931 until 1951. The CDPH records indicated the replacement of one 1,000-gallon gasoline UST in 1955. Records of the (up to three) USTs' removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. The on-site historical filling station (in operation for at least 27 years), the potential use of petroleum products as a filling/service station, and the absence of records for removal of USTs are considered RECs to the site.
 - A large coal storage / coal yard with railroad spurs was indicated on the central portion of the site (north of the railroad tracks) on the 1897 to 1939 Sanborn Maps with vacant, dilapidated buildings associated with the operation noted on the 1950 Sanborn Map. Although not observed during the 2021 site reconnaissance, due to access limitations to the former coal yard portion of the site, the prior 2004 Phase I ESA reported evidence of coal, cinders, and slag on the south central portion of the site. If the coal storage yard treated or otherwise processed the coal on the site, this would be considered a REC to the site.
 - A lumber yard occupied the southeast portion of the site from at least 1897 to 1975. If the lumber yard treated or stored treated lumber on the site, this would be considered a REC to the site.
- § Adjoining properties appeared as urban development by 1892. From 1911 to the present, urban development surrounding the site consisted of residential dwellings, a school, retail stores, commercial/industrial structures, filling stations, junkyards, and railroad tracks along South Michigan Avenue, East 115th Street, and South State Street appeared present. The area surrounding the south parcels (south of the railroad tracks) have been occupied by mostly residential structures with the exception of warehouse/repair facility and a historical train station from 1897 to the present.
- § The following off-site RECs were identified during the historical documentation review:
- The west and north adjoining property (23 East 115th Street) was occupied by Illinois Metal Cabinet Co Inc (1947-1951) and Bonell Mfg. Co Die Makers (1947). The large commercial building was indicated as "sheet metal warehouse" at 19-21 East 115th Street on the 1950 Sanborn Map. The historical sheet metal operation on the adjoining property is considered a REC to the site.

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

- The north adjacent property, located at 11452 South Michigan Avenue, was identified as Bach Bros Clothing (1928) and Calumet Supreme Cleaners (1947-1966). Based on the proximity to the site and potential historical use of chlorinated solvents for at least 29 years, the off-site historical cleaner is considered RECs to the site.
- The east adjacent property, located at 11501 South Michigan Avenue, was identified as a historical cleaner from 1971 to 1981. Based the potential historical use of chlorinated solvents for at least 10 years and the property's proximity to the site (approximately 65 feet east), the off-site historical cleaner is considered a REC to the site.
- The east adjacent property, located at 11503 South Michigan Avenue, was identified as a historical cleaner in 1928. Based the potential historical use of chlorinated solvents and the property's proximity to the site (approximately 65 feet east), the off-site historical cleaner is considered a REC to the site.
- The east adjacent property, located at 11525 South Michigan Avenue, was listed as a historical filling/service station including: Greenway Charles S Auto Laundry (1928), Rauch Fred gasoline Service Station (1928), and Paulson Gustav A auto repairs (1928). The east adjacent property was also identified as a filling station with three USTs on the 1939 Sanborn Map. Based on the proximity to the site, potential use of petroleum products for at least 11 years, and the absence of tank removal records, the off-site historical filling station is considered RECs to the site.
- The historical filling/service station (Bobs Super 100/0707 Clark Service Station/Clark & Oil Refining (11555 S Michigan Avenue), located approximately 65 feet east of the site was identified on the EDR Hist Auto, UST, and leaking underground storage tank (LUST) regulatory databases. The EDR database indicated the property as Bob's Super 100 from 1982 until 1992. The property was also identified in the 1975 to 1989 Sanborn Maps as filling station. The OSFM database, Office of the State Fire Marshal (OSFM) Freedom of Information Act (FOIA), and CDPH records indicated the historical presence of two 6,000-gallon gasoline USTs (installed in 1960) and one 7,500-gallon gasoline UST (installed in 1971) which were reportedly removed from the Clark Retail Enterprise property in 1991. LUST incident # 912512 was assigned to the property; the IEPA issued a No Further Remediation (NFR) letter on January 9, 1995 after "miscellaneous correspondence was received." Reviewable documents were not available on the IEPA Doc Explorer website. A FOIA request was sent to the Illinois Environmental Protection Agency (IEPA) for further details of the closure; however, at the issuance of this report, a response has not been received. Based on the absence

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

of reviewable information for the off-site historical filling station, this is considered a REC to the site.

- The west adjoining and east adjacent truck repair shop (11575 South Wabash Avenue) was identified in the city directories as Super J Towing (1993-1994), Otis Henderson (2004), 10 XX (2004), and XOX Charter Bus Service Inc. (2014-2017). During the surrounding area site reconnaissance, XOX Charter Bus Service Inc. was observed to occupy the building. The 1939 Sanborn maps noted the building as a transfer warehouse and the 1950 to 1989 Sanborn Maps indicated the building as trailer factory with lacquer spraying. The historical use of the adjacent property as an historical manufacturing facility and the existing and historical use of the property as truck repair facility and its proximity to the site is considered a REC.
 - Railroad tracks have been located south of the main site and north of the south parcels since at least 1911.
- § Terracon reviewed U.S. Fish and Wildlife Service (FWS) National Wetland Inventory (NWI) Maps for visual indicators to assess the likely presence or absence of regulated wetlands on the site. The NWI maps did not indicate the presence of regulated wetland features present on the site. Obvious indications of on-site wetland areas were not observed during the site reconnaissance.
- § It should be noted that the potential presence of “orphan” USTs onsite cannot be entirely eliminated on any property that was previously developed.
- § The site was observed to be vacant during the site reconnaissance. However, remnant building foundations were observed during the site reconnaissance which appear to correlate with historical development of the site.

FINDINGS AND CONCLUSIONS

Terracon has performed this Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-13 of 11500-82 South Michigan Avenue, 11517-31 South State Street, 11562 South Wabash Avenue, and 25-31 East 115th Street, Chicago, Cook County, Illinois, the site. Any exceptions to, or deletions from, this practice are described in Section 1.4 – Limitations and Exceptions of this report. The following evidence of on RECs was identified in connection with the site:

- The on-site property (Oak Park National Bank at 11500 South Michigan Avenue) appears to refer to a historical retail strip mall which is no longer present on the site. The CDPH database indicated the 1958 installation of two

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

315-gallon, one 1,000-gallon, one 2,000-gallon (with enclosure), and five 315-gallon fuel oil USTs, and 1959 installation one 2,000-gallon and five 300-gallon fuel oil tanks (final n/g). The prior 2004 Phase I ESA, conducted prior to the demolition of the former retail strip mall, reported several suspect fill and vent pipes along the exterior rear (west and north) sides of the building; the suspect pipe locations. Records of USTs removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. The absence of reported removal records indicates the potential for up to ten orphan USTs remaining on the site which is considered a REC to the site.

- The on-site historical cleaner (addressed as 11518 South Michigan Avenue) present from at least 1966 until at least 2004 which reported use/generation PCE and TCE. The CDPH records indicated that the former dry cleaners had been previously inspected for reported dumping of the chemicals into the sewers; however, the inspector did not report findings that indicated the violation with the presence of storage of PERC at the facility. The prior 2004 Phase I ESA reported poor housekeeping conditions at the dry cleaning facility, which was in operation in 2004. Based on the known presence of historical dry cleaning operations with use of chlorinated solvents, and duration of operations (at least 38 years), the historical on-site cleaner constitutes a REC to the site.
- A gasoline tank was indicated south of the retail/residential structures at 25 East 115th Street on the 1939 to 1950 Sanborn Maps on the north portion of the site. Records of the UST installation and/or removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. This is considered a REC to the site.
- The historical on-site business (25 East 115th Street) was identified as a historical carpet cleaners and layers in 1928 in the regulatory database and identified as Asdooraian Danl rug cleaner in the 1928 city directory. The building was identified on the 1897 to 2004 Sanborn maps as a store/retail building. Based on the potential usage of chlorinated solvents, the former on-site cleaner constitutes a REC.
- A filling/service station (11521 South State Street) with three gasoline tanks was indicated on the northwest portion of the site along South State Street from at least 1931 until 1958. The CDPH records indicated the replacement of one 1,000-gallon gasoline UST in 1955. Records of the (up to three) USTs' removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. The on-site

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

historical filling station (in operation for at least 27 years), the potential use of petroleum products as a filling/service station, and the absence of records for removal of USTs are considered RECs to the site.

- A door and sash factory, located at 11546 S Michigan Avenue, was indicated on the southeast portion of the site in the 1950 Sanborn Map. The historical on-site manufacturing operations are considered a REC to the site.
- An auto body repair and paint facility (11520-11524 S Michigan Avenue) was identified on the east portion of the site from at least 1939 until 1958. The on-site historical auto repair operations, potentially utilizing petroleum products, during their on-site operation for at least 11 years, are considered a REC to the site.
- A large coal storage / coal yard with railroad spurs was indicated on the central portion of the site (north of the railroad tracks) on the 1897 to 1939 Sanborn Maps with vacant, dilapidated buildings associated with the operation noted on the 1950 Sanborn Map. Although not observed during the 2021 site reconnaissance, due to access limitations to the former coal yard portion of the site, the prior 2004 Phase I ESA reported evidence of coal, cinders, and slag on the south central portion of the site. If the coal storage yard treated or otherwise processed the coal on the site, this would be considered a REC to the site.
- A lumber yard occupied the southeast portion of the site from at least 1897 to 1975. If the lumber yard treated or stored treated lumber on the site, this would be considered a REC to the site
- The following evidence of on and off-site RECs was identified in connection with the site:
 - The west and north adjoining property (23 East 115th Street) was occupied by Illinois Metal Cabinet Co Inc (1947-1951) and Bonell Mfg. Co Die Makers (1947). The large commercial building was indicated as “sheet metal warehouse” at 19-21 East 115th Street on the 1950 Sanborn Map. The historical sheet metal operation on the adjoining property is considered a REC to the site.
 - The north adjacent property, located at 11452 South Michigan Avenue, was identified as Bach Bros Clothing (1928) and Calumet Supreme Cleaners (1947-1966). Based on the proximity to the site and potential historical use of chlorinated solvents for at least 29 years, the off-site historical cleaner is considered RECs to the site

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

- The east adjacent property, located at 11501 South Michigan Avenue, was identified as a historical cleaner from 1971 to 1981. Based on the potential historical use of chlorinated solvents for at least 10 years and the property's proximity to the site (approximately 65 feet east), the off-site historical cleaner is considered a REC to the site.
- The east adjacent property, located at 11503 South Michigan Avenue, was identified as a historical cleaner in 1928. Based on the potential historical use of chlorinated solvents and the property's proximity to the site (approximately 65 feet east), the off-site historical cleaner is considered a REC to the site.
- The east adjacent property, located at 11525 South Michigan Avenue, was listed as a historical filling/service station with three USTs from at least 1928 until at least 1939. Based on the proximity to the site, potential use of petroleum products for at least 11 years, and the absence of tank removal records, the off-site historical filling station is considered a REC to the site.
- The historical filling/service station (Bobs Super 100/0707 Clark Service Station/Clark & Oil Refining (11555 S Michigan Avenue), located approximately 65 feet east of the site) was identified on the EDR Hist Auto, UST, and LUST regulatory databases. The EDR database indicated the property as Bob's Super 100 from 1982 until 1992. The property was also identified in the 1975 to 1989 Sanborn Maps as a filling station. The OSFM database, OSFM FOIA, and CDPH records indicated the historical presence of two 6,000-gallon gasoline USTs (installed in 1960) and one 7,500-gallon gasoline UST (installed in 1971) which were reportedly removed from the Clark Retail Enterprise property in 1991. LUST incident # 912512 was assigned to the property; the IEPA issued a NFR letter on January 9, 1995 after "miscellaneous correspondence was received." Reviewable documents were not available on the IEPA Doc Explorer website. A FOIA request was sent to the IEPA for further details of the closure; however, at the issuance of this report, a response has not been received. Based on the absence of reviewable information for the off-site historical filling station, this is considered a REC to the site.
- The west adjoining and east adjacent truck repair shop (11575 South Wabash Avenue) was identified in the city directories as Super J Towing (1993-1994), Otis Henderson (2004), 10 XX (2004), and XOX Charter Bus Service Inc. (2014-2017). During the surrounding area site reconnaissance, XOX Charter Bus Service Inc. was observed to occupy the building. The 1939 Sanborn maps noted the building as a transfer warehouse and the 1950 to 1989 Sanborn Maps indicated the building as a trailer factory with lacquer spraying. The historical use of the adjacent property as an historical manufacturing facility and the existing and historical use

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

of the property as truck repair facility and its proximity to the site is considered a REC.

- Railroad tracks have been located south of the main site and north of the south parcels since at least 1911.
- § Terracon reviewed U.S. Fish and Wildlife Service (FWS) National Wetland Inventory (NWI) Maps for visual indicators to assess the likely presence or absence of regulated wetlands on the site. The NWI maps did not indicate the presence of regulated wetland features present on the site. Obvious indications of on-site wetland areas were not observed during the site reconnaissance.
- § It should be noted that the potential presence of “orphan” USTs onsite cannot be entirely eliminated on any property that was previously developed.

The site was observed to be vacant during the site reconnaissance. However, remnant building foundations were observed during the site reconnaissance which appear to correlate with historical development of the site.

Significant Data Gaps

- § Significant data gaps were not identified during the course of this ESA.

PHASE I ENVIRONMENTAL SITE ASSESSMENT

115th & Michigan Ave & State Street
11500-82 South Michigan Avenue, 11517-31 South State Street,
11562 South Wabash Avenue, and 25-31 East 115th Street
Chicago, Cook County, Illinois

Terracon Project #: A2217022B

1.0 INTRODUCTION

1.1 Project Overview

This Phase I Environmental Site Assessment (ESA) was performed in accordance with Task Order Request (TOR) No.: 20-AISEHS-0002 and was conducted consistent with the procedures included in ASTM International (ASTM) E1527-13, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process. The purpose of this ESA was to assist the City of Chicago, Department of Assets, Information, and Services (client also known as AIS) in developing information to identify potential impacts, their extent, and determine if remediation is necessary prior to the redevelopment of the site for future uses, as well as, to qualify for Landowner Liability Protection under Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). This purpose was undertaken through user-provided information, a regulatory database review, historical and physical records review, and interviews (when available), including local government inquiries, as applicable, user-provided information, and a visual noninvasive reconnaissance of the site and adjoining properties. Limitations, ASTM deviations, and significant gaps (if identified) are evident from reviewing the applicable scope of services and the report text.

1.2 Site Description

Site Location/Address	115th & Michigan Ave & S State Street 11500-82 South Michigan Avenue, 11517-31 South State Street, 11562 South Wabash Avenue, and 25-31 East 115th Street Chicago, Cook County, Illinois
Land Area	Approximately 6.04 acres
Site Improvements	The site is currently vacant lots with remnant building foundations and parking lots.
Site Use	The site is currently vacant lots.
PIN Numbers¹	25-22-300-005, -006, -007, -019, -031, -032, -033, -038, -039, -040, -041, -042, -043, -053, -058, -063, and -068

¹ Permanent Index Numbers (PINs)

Adjacent Properties	
Adjoining North	East 115 th Street followed by institutional and retail properties.
Adjoining South	Railroad tracks and residential and commercial properties.
Adjoining East	South Michigan Avenue followed by retail properties, vacant lots, and abandoned mixed retail/residential properties.
Adjoining West	Vacant lots and South State Street followed by vacant lots and railroad tracks.

The site location is depicted on Exhibit 1, which was reproduced from a portion of the United States Geologic Survey (USGS) 7.5-minute series topographic map (Lake Calumet, Illinois Quadrangle). A Site Diagram of the site and adjoining properties is included as Exhibit 2. A Cook County Permanent Index Number (PIN) map is included as Exhibit 3.

1.3 Scope of Work

The following scope of work was performed in accordance with TOR 20-AISEHS-0002:

- § **Tasks undertaken:** field reconnaissance, freedom of information act (FOIA) requests (City of Chicago and state departments), regulatory database search, and historical data review (topographic maps, aerial photographs, city directories, and Sanborn Maps).
- § **Tasks NOT undertaken:** ASTM E 2600-15 Vapor Encroachment screening, lien search, and a chain-of-title were not conducted.

1.4 Limitations and Exceptions

Based upon the agreed-on scope of services, this ESA did not include subsurface or other invasive assessments, business environmental risk evaluations, or other services not particularly identified and discussed herein. Reasonable attempts were made to obtain information within the scope and time constraints set forth by the client; however, in some instances, information requested is not, or was not, received by the issuance date of the report. Consideration of such information is beyond the scope of this assessment. Information obtained for this ESA was received from several sources that we believe to be reliable; nonetheless, the authenticity or reliability of these sources cannot and is not warranted hereunder. This assessment was further limited by the following:

- § *In accordance with the scope of work, a chain-of-title and environmental lien search were not performed in accordance with the TOR.*
- § *A review of readily available resources did not identify a time prior to the first developed use.*

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

An evaluation of the significance of these limitations and missing information with respect to our findings has been conducted, and where appropriate, significant data gaps are identified and discussed in the text of the report; however, it should be recognized that an evaluation of significant data gaps is based on the information available at the time of report issuance, and an evaluation of information received after the report issuance date may result in an alteration of our conclusions, recommendations, or opinions. We have no obligation to provide information obtained or discovered by us after the issuance date of the report, or to perform any additional services, regardless of whether the information would affect any conclusions, recommendations, or opinions in the report. This disclaimer specifically applies to any information that has not been provided by the client.

This report represents our service to you as of the report date. Findings in this report are based upon the site's current utilization, information derived from the most recent reconnaissance and from other activities described herein; such information is subject to change. Certain indicators of the presence of hazardous substances or petroleum products may have been latent, inaccessible, unobservable, or not present during the most recent reconnaissance and may subsequently become observable (such as after site renovation or development). Further, these services are not to be construed as legal interpretation or advice.

1.5 Standard of Care

This ESA was performed in accordance with generally accepted practices of this profession, undertaken in similar studies at the same time and in the same geographical area. We have endeavored to meet this standard of care, but may be limited by conditions encountered during performance, a client-driven scope of work, or inability to review information not received by the report date. Where appropriate, these limitations are discussed in the text of the report, and an evaluation of their significance with respect to our findings has been conducted.

Phase I ESAs, such as the one performed at this site, are of limited scope, are noninvasive and cannot eliminate the potential that hazardous, toxic, or petroleum substances are present or have been released at the site beyond what is identified by the limited scope of this ESA. In conducting the limited scope of services described herein, certain sources of information and public records were not reviewed. It should be recognized that environmental concerns may be documented in public records that were not reviewed. No ESA can wholly eliminate uncertainty regarding the potential for RECs in connection with a property. Performance of this practice is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs. No warranties, express or implied, are intended or made. The limitations herein must be considered when the user of this report formulates opinions as to risks associated with the site or otherwise uses the report for any other purpose. These risks may be further evaluated – but not eliminated – through additional research or assessment. We will, upon request,

advise you of additional research or assessment options that may be available and associated costs.

1.6 Reliance

This ESA report is prepared for the exclusive use and reliance of the City of Chicago. Use or reliance by any other party is prohibited without the written authorization of City of Chicago Terracon.

Continued viability of this report is subject to ASTM E1527-13 Sections 4.6 and 4.8. If the ESA will be used by a different user (third party) than the user for whom the ESA was originally prepared, the third party must also satisfy the user’s responsibilities in Section 6 of ASTM E1527-13.

1.7 Client Provided Information

In accordance with All Appropriate Inquiry (AAI), Terracon requested client information from the City of Chicago. Prior to the site visit, Ms. Sarah Rubin, client’s representative, was asked to provide the following user questionnaire information as described in ASTM E 1527-13 Section 6.

Client Questionnaire Responses

Client Questionnaire Item	Ms. Rubin’s Response	
	Yes	No
Aware of any Environmental Cleanup Liens against the site.		Chain of Title and Environmental Lien Search not completed
Actual Knowledge of Environmental Liens or Activity Use Limitations (AULs) that may encumber the site.		
Aware of any Specialized Knowledge or Experience related to the site or nearby properties.		X
Actual Knowledge of a Significantly Lower Purchase Price because of hazardous substances or petroleum products.		Not applicable
Commonly Known or Reasonably Ascertainable Information that is material to a release in connection with the site.		X
Obvious Indicators of Contamination at the site.		X

Terracon’s consideration of the client provided responses did not identify RECs in connection with the site. Ms. Rubin indicated that the property does not have a right of entry agreement

and that the site visit should be conducted from the public sidewalk. A copy of the completed user questionnaire is included in Appendix F.

2.0 PROPERTY OVERVIEW

2.1 Property Location and Land Use

2.1.1 Property Location

The site is located within the southwest quarter of Section 22, Township 37 North, Range 14 East of the third principal meridian, Cook County, Illinois.

2.1.2 Adjacent Property Locations and Land Uses

Adjacent Properties	
Adjoining North	East 115th Street followed by Curtis Elementary School with boarding structures (32 East 115 th Street) and Family Dollar retail store (11438 South Michigan Avenue).
Adjoining South	Union Pacific railroad tracks, residential structures (11572-78 South Wabash Avenue), XOX XOX Charter Bus Inc, (11557-73 South Wabash Avenue), cellular tower, abandoned structure (historical rail station), and parking lot / tow lot (possible auto repair) (11584-92 South State Street).
Adjoining East	South Michigan Avenue followed by vacant lots, Scott Enterprise real estate, tax, etc. office (11513 South Michigan Avenue), vacant lots, mixed retail/residential including Danys' Tacos (11527 South Michigan Avenue), Angelina Thrift Shop (11533 South Michigan Avenue), Esthela's Hair (11541 South Michigan Avenue), and Manny's Groceries (11545 South Michigan Avenue), intersection of East Kensington Avenue & South Michigan Avenue, parking lot/former filling station (11555 South Michigan Avenue), and abandoned mixed retail/residential buildings (11563-73 South Michigan Avenue).
Adjoining West	Vacant lots (0-23 East 115 th Street) and north-south traversing South State Street followed by vacant lots (11514-26 South State Street) and railroad tracks.

2.1.3 Utilities

The PINs are in a location where water and sewer connections to the municipal system are required. Metropolitan Water Reclamation District of Greater Chicago (MWRD) and the City of Chicago provide sanitary sewer and potable water services to the site vicinity, respectively. Commonwealth Edison (ComEd) provides electrical service to the area and People’s Energy provides natural gas service.

2.2 Physical Setting

2.2.1 Topography

Topography*		
<i>Site Elevation</i>	Approximately 590-610 feet above National Geodetic Vertical Datum (NGVD).	Lake Calumet, Illinois USGS Topographic Map, dated 1997.
<i>Surface Runoff/ Topographic Gradient</i>	Regional topographic relief is generally to the east-southeast. Local runoff is directed to the municipal storm water system.	

*Please refer to Exhibit 1 for an excerpt of the topographic map.

2.2.2 Geology/Hydrogeology

Geology/Hydrogeology		
<i>Formation:</i>	Dolomites and limestones of the Silurian-Devonian age lying beneath upper-Devonian shales, Mississippian rocks or Quaternary deposits.	USGS Hydraulic Investigations Atlas 730-K, Dated 1995.
<i>Hydrogeologic Gradient:</i>	Unknown, interpreted to be parallel to the topographic gradient towards the east.	Lake Calumet, Illinois USGS Topographic Map, dated 1997.
<i>Soils:</i>	Surface soils are composed of urban land containing approximately 80% man-made earthen materials.	Cook County, Illinois USDA-NRCS Web Soil Survey issued 2021.
<i>Primary Aquifer</i>	Silurian-Devonian aquifer exposed or overlain by Quaternary surficial deposits generally less than 100 feet thick. The occurrence of sand and gravel aquifers difficult to locate.	USGS Hydraulic Investigations Atlas 730-K, Dated 1995
<i>Estimated depth to first occurrence of groundwater</i>	Estimated to be approximately 4 to 15 feet below ground surface (bgs).	Terracon’s experience in the site vicinity.

2.2.3 Surface Water Bodies

Surface water bodies were not observed on or immediately adjacent to the site. An unnamed pond is located approximately 3,330 feet southeast of the site.

2.2.4 Wetlands

Terracon reviewed the U.S. Fish and Wildlife Service (FWS) National Wetland Inventory (NWI) maps for the site. The FWS NWI maps did not indicate the presence of potentially regulated wetlands on or adjacent to the site. Additionally, Terracon did not observe obvious indications of the likely presence of regulated wetlands on the site.

2.2.5 Flood Maps

Terracon accessed the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map (FIRM) website. Based on the FIRM Map Number 17031C0661J, dated August 19, 2021, the site is located within Flood Zone X, which is not a part of the 100-year or 500-year floodplain.

3.0 PROPERTY BACKGROUND/OPERATING HISTORY

Terracon reviewed the following historical sources to obtain information regarding property background, operating history, and for indications of RECs. Copies of selected historical documents were appended to this report.

3.1 Review of Aerial Photographs

Selected historical aerial photographs, provided by EDR, were reviewed to obtain information concerning the history of development on and near the site. Evaluation of these aerials may be limited by a photo's quality and scale. Underlined descriptions in the following table indicate additional discussion is offered following the table. Selected photographs are summarized below.

Year	Source	Scale
1938	EDR	1"=500'
1952	EDR	1"=500'
1959	EDR	1"=500'
1962	EDR	1"=500'
1967	EDR	1"=500'
1973	EDR	1"=500'
1978*	EDR	1"=500'
1983	EDR	1"=500'
1993	EDR	1"=500'
1998	EDR	1"=500'
1999	EDR	1"=500'
2007	EDR	1"=500'
2011	EDR	1"=500'
2014	EDR	1"=500'

Year **Source** **Scale**
 2017 EDR 1"=500'

*The resolution of the 1978 aerial photograph was too poor to discern site features and is not included in the table below; however, a copy of this aerial is included in Appendix A.

Historical Aerial Photographs

Direction	Description
Site	Retail/residential structures apparent along South State Street, East 115 th Street, and the north portion of South Michigan Avenue with a larger structure along the south portion of South Michigan Avenue; large structures related to the <u>coal storage operation</u> are apparent on the south central portion of the site (1938); retail and commercial structures apparent along South Michigan Avenue and East 115 th Street; <u>a filling station</u> and commercial building along South State Street, and the south central portion of the site appears a vacant graded land (1952); the filling station is no longer apparent and majority of the site is occupied by a multi-unit retail strip mall and parking lot with two additional retail buildings along East 115 th Street and larger commercial structures on the southeast portion of the site (1959-1999); a retail structure is apparent along East 115 th Street but the large multi-unit retail structures are no longer present with remnant buildings foundations and parking lots are apparent; areas of wooded or heavily vegetated land is located along the southern border and northeast portion of the site (2007); vacant lots with remnant building foundations and parking lots with some wooded/heavily vegetated areas (2011-2017). The portion of parcels south of the railroad tracks appear as vacant land or heavily wooded/vegetated land bordering the railroad tracks (1938-2017).
Adjacent properties	
North	Northeast corner of South State Street & East 115th Street: dwellings along South State Street and commercial building along East 115 th Street (1938-2007); vacant lots and a commercial/retail building (2011); vacant lots (2014-2017). North of East 115th Street: retail/commercial structures and <u>Curtis School</u> to the northwest (1939-1967); <u>Curtis School</u> and a retail/commercial structure (1973-1993); <u>Curtis School</u> and the larger existing retail structure and parking lot (1998-2017).
East	South Michigan Avenue followed by retail/commercial structures with a <u>filling station approximately 200 feet south of East 115th Street</u> (1938); South Michigan Avenue followed by retail/commercial structures; a bowling alley indicated in former location of the filling station (1952); similar to 1952 with a <u>filling station indicated at the southeast corner of South Michigan Avenue and Kensington Avenue</u> (1959-1983); similar to 1983 except the filling station structures are no longer apparent and lot appears to be a parking lot (1993-1998); vacant lots, retail/commercial structures, and parking lots (2007-2017).
South	<u>Railroad tracks</u> , vacant lots, Wabash Avenue, residential structures, a warehouse, and railroad station (1938-1952); <u>railroad tracks</u> , vacant lots, Wabash Avenue, residential structures, a warehouse, and wooded/heavily vegetated land (1959-2017).

Direction	Description
West	<p>Northeast corner of South State Street & East 115th Street: dwellings along South State Street and commercial building along East 115th Street (1938-2007); vacant lots and a commercial/retail building (2011); vacant lots (2014-2017).</p> <p>West of South State Street: vacant/heavily vegetated lot, <u>railroad tracks</u> (south), and retail structures (north) (1938-1962); similar to 1962 with several truck trailers parked on the lot (1968-1973); a structure is apparent on the center of former vacant lot (1983); vacant lot with billboard and railroad control box (1993-1999); heavily vegetated land with billboard and railroad control box (2007-2017).</p>

3.2 Review of Topographic Maps

Selected USGS topographic maps were provided by EDR. These maps were reviewed to assess past uses and relevant characteristics of the site and surrounding properties. The following topographic maps were reviewed. A copy of an 1997 USGS topographic map is included as Exhibit 1.

- § Calumet, Illinois Quadrangle, scaled 1:62,500 (1882, 1893, 1900, 1901);
- § Lake Calumet, Illinois Quadrangle, scaled 1:24,000 (1929, 1953, 1960, 1965, 1973, 1977, 1991, 1997, 2012, 2015, 2018); and
- § Blue Island, Illinois Quadrangle, scaled 1:24,000 (1929, 1948, 1956, 1963, 1973, 1978, 1993, 1997, 2012, 2015, 2018).**(depicts areas west of the site)

Historical Topographic Maps

Direction	Description
Site	Urban developed area bisected by <u>railroad tracks</u> (1882-1893); apparent structures in the central portion of the site just north of the <u>railroad tracks</u> (1900-1901); apparent structures along South Michigan Avenue, East 115 th Street, and South State Street and site bisected by <u>railroad tracks</u> (1929); red or gray shaded area* bisected by <u>railroad tracks</u> (1953-2018).
Adjacent properties	
North	Road followed by urban developed area (1882-1893); road followed by a large structure (1900-1901); the larger structure is no longer apparent and replaced by several large and smaller structures (1929); road followed by red shaded area* with an institutional facility - <u>Curtis School</u> indicated northwest of the site (1953-1997); road followed by gray shaded area* (2012); road followed by gray shaded area* with an institutional facility/ <u>school</u> indicated (2015-2018)
East	Road followed by urban developed area (1882-1893); road followed by structures and <u>railroad tracks</u> (1900-1929); road followed by red or gray shaded area* and railroad tracks (1953-2018).
South	<u>Railroad tracks</u> and urban area (1882-1929); <u>railroad tracks</u> and red or gray shaded area* (1953-2018).

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

Direction	Description
West	Road followed by urban developed area (1882-1893); road followed by structures and <u>railroad tracks</u> (1900-1929); road followed by red or gray shaded area* and <u>railroad tracks</u> (1953-2018).

* Based on the color-coding of the 1948-2018 topographic maps (shading), the site and surrounding areas appear to be included in a densely developed area. Structures are not depicted on these maps in the area of the subject site or surrounding properties; however, this does not necessarily indicate that these areas were undeveloped as of the date on the maps. Street development; however, is depicted on these maps.

The above underlined and italicized listings are further discussed in sections 4.1 (school) and 3.3 (railroad tracks), as applicable.

3.3 Review of Sanborn Maps

Historical fire insurance maps produced by the Sanborn Map Company were requested from EDR to evaluate past uses and relevant characteristics of the site and surrounding properties. Underlined listings indicate that additional discussion is provided following the table. EDR provided Sanborn maps include:

§ EDR – 1897, 1911, 1939, 1950, 1975, 1987, 1989, 1992, 2002, 2004.

Historical Sanborn Fire Insurance Maps

Direction	Description
Site	The majority of the site was occupied by residential and retail structures with a church (southeast), <u>lumber yard</u> (southeast), <u>coal and wood sheds</u> (south-central), and hay, grain, and feed store (southwest) with vacant lots (south of the railroad tracks) (1897); similar to 1897 with a <u>large coal storage operation (coal yard) with rail spurs</u> (central portion - north of the railroad tracks) and a school/church (east-central) (1911); residential and retail/residential structures with a <u>gasoline tank</u> (rear of 25 East 115 th Street) (north), <u>filling station with three gasoline tanks</u> (11521 S State Street) (west), <u>Reading Coal Co. Yard and rail spurs</u> (central), <u>lumber yard</u> (southeast), vacant church (east-central), and mixed residential and retail structures (northeast) (1939); residential and retail/residential structures with a <u>gasoline tank</u> (rear of 25 East 115 th Street) (north), <u>filling station with three gasoline tanks</u> and coffee roaster facility (west), vacant and dilapidated structures from the <u>former coal yard and rail spurs</u> (central), <u>lumber yard</u> and <u>sash & door factory</u> (11546 S Michigan Avenue) (southeast), vacant church (east-central), and mixed residential and retail structures (northeast) including an <u>auto body repair & paint facility</u> (11520-11524 S Michigan Avenue), and vacant lots (south of railroad tracks) (1950); retail stores (23-29 E 115 th Street), retail strip mall (11500-11518 S Michigan Avenue and 11525 S State Street), Illinois Bell Telephone Co. (11532-11540 S Michigan Avenue), <u>lumber yard</u> (11550-11552 S Michigan Avenue), and vacant lots (south of railroad tracks) (1975); similar to 1987 except the lumber yard is indicated as a commercial building (1987-2004). The area south of the railroad tracks appear as vacant lots bordering the railroad tracks (1897-2004).

Adjacent properties	
North	<p><u>Northeast corner of South State Street & East 115th Street:</u> dwellings (1897-1911); dwellings along South State Street and a vacant large commercial building (1939); dwellings along South State Street and a large commercial building indicated as “sheet metal warehouse” (1950); dwellings along South State Street and a large commercial building indicated as a used furniture store (1975-1992); residential structures and a large commercial building (2002-2004).</p> <p><u>North of East 115th Street:</u> dwellings, retail structures, black smith/cobblers, and a paint shop (1897); dwellings and retail structures and <i>Geo W Curtis Public School</i> indicated northwest of the site (1911-1950); <i>Curtis School</i> and a retail/commercial building (1975-1992); <i>Curtis School</i> and larger retail/commercial building and parking lot (2002-2004).</p>
East	<p>South Michigan Avenue followed by retail structures, dwellings, and vacant lots with a black smith shop (11561 South Michigan Avenue) (1897-1911); South Michigan Avenue followed by retail structures including an undertaker (11511 S Michigan Avenue), a <i>filling station with three gas tanks (11517-25 S Michigan Avenue)</i>, printing facility (11541 S Michigan Avenue), upholstery (11545 S Michigan Avenue), and junkyard (11573 S Michigan Avenue) (1939); South Michigan Avenue followed by retail structures including bowling alley (11515-27 S Michigan Avenue), printing facility (11541 S Michigan Avenue), and junkyard (11573 S Michigan Avenue) (1950); South Michigan Avenue followed by retail structures including bowling alley (11515-27 S Michigan Avenue), printing facility (11541 S Michigan Avenue), <i>a filling station (11555 S Michigan Avenue)</i>, and junkyard (11573 S Michigan Avenue); fire ruins indicated at 11507-09 S Michigan Avenue (1975); South Michigan Avenue followed by retail and commercial structures including bowling alley (11515-27 S Michigan Avenue <i>a filling station (11555 S Michigan Avenue)</i>) (1987-1898); South Michigan Avenue followed by vacant lots and retail/commercial structures; the filling station and bowling alley are no longer apparent (1992); similar to 1992 with more vacant lots (2002-2004).</p>
South	<p><i>Railroad tracks</i>, vacant lots, Wabash Avenue, and dwellings (1897); railroad tracks, vacant lots, Wabash Avenue, dwellings, and a warehouse (11573 South Wabash Avenue) (1911); <i>railroad tracks</i>, vacant lots, Wabash Avenue, dwellings, a transfer warehouse (11575-77 South Wabash Avenue), and Kensington Passenger Station (11584 South Michigan Avenue) (1939); <i>railroad tracks</i>, vacant lots, Wabash Avenue, dwellings, a warehouse (11573 S Wabash Avenue), <i>a trailer factory with lacquer spraying (11575-77 South Wabash Avenue)</i>, and Kensington Passenger Station (11584 South Michigan Avenue) (1950); similar to 1950 except the Kensington Passenger Station is no longer apparent (1975-1989); similar to 1989 except the trailer factory is indicated as “One – M” (2002-2004).</p>
West	<p><u>Northeast corner of South State Street & East 115th Street:</u> dwellings (1897-1911); dwellings along South State Street and a vacant large commercial building (1939); dwellings along South State Street and a large commercial building indicated as “<i>sheet metal warehouse</i>” (1950); dwellings along South State Street and a large commercial building indicated as a used furniture store (1975-1992); residential structures and a large commercial building (2002-2004).</p> <p><u>West of South State Street:</u> <i>Coal yard</i> and <i>railroad tracks</i> (1897); Wacker & Birk Brewing Co. Roseland Branch Beer Depot and <i>railroad tracks</i> (1911); <i>junkyard</i> and <i>railroad tracks</i></p>

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

(1939-1950); area west of South State Street not depicted (1975-1987); vacant land and railroad tracks (1989-1992); “junk” with small structure indicated and railroad tracks (2002-2004).

The following on-site listings of environmental concern were identified in the Sanborn maps:

- A large coal storage / coal yard was indicated on the central portion of the site (north of the railroad tracks) on the 1897 to 1939 Sanborn Maps with vacant, dilapidated buildings associated with the operation noted on the 1950 Sanborn Map. If the coal storage yard treated or otherwise processed the coal on the site, this would be considered a REC to the site. This is further discussed in Sections 3.6, 4.2.1, and 5.1.
- Railroad spurs, as part of the coal yard operations, were indicated on the southwest portion of the site on the 1911 to 1950 Sanborn Maps.
- A gasoline tank was indicated south of the retail/residential structures at 25 East 115th Street on the 1939 to 1950 Sanborn Maps.
- A filling station with three gasoline tanks was indicated on the northwest portion of the site on the 1911 to 1950 Sanborn Maps.
- A lumber yard occupied the southeast portion of the site from at least 1897 to 1975.
- A door and sash factory, located at 11546 S Michigan Avenue, was indicated on the southeast portion of the site in the 1950 Sanborn Map.
- An auto body repair & paint facility (11520-11524 S Michigan Avenue) was identified on the 1950 Sanborn Map.
- A multi-tenant retail strip mall was indicated on the northeast portion of the site on the 1975 to 2004 Sanborn Maps; one of the units (11518 S Michigan Avenue) was identified on the regulatory database as dry cleaning facility. This is further discussed in Section 4.1.

The following off-site listings of environmental concern were identified in the Sanborn maps:

- Adjoining west and north of portions of the site, a large commercial building indicated as “sheet metal warehouse” was indicated at 19-21 East 115th Street on the 1950 Sanborn Map.
- The east adjacent historical filling station noted three gasoline USTs (11517-25 S Michigan Avenue) on the 1939 Sanborn map.
- Adjacent east of the site, a filling station (11555 S Michigan Avenue) was identified on the 1975 to 1989 Sanborn maps.
- Railroad tracks have been located south of the main site and north of the south parcels since at least 1911.
- A warehouse indicated as a transfer warehouse in 1939 and as trailer factory with lacquer spraying in from 1950 to 1989 was noted between the two south parcels.
- A coal yard was identified west of the site in the 1897 Sanborn Map.

- A junkyard or junk was indicated on the property west of the site on the 1939 to 2004 Sanborn Maps.

3.4 Review of City Directories

The R.L. Polk & Co., Illinois Bell Telephone, The Reuben H. Donnelley Corp. Telephone Directory Co., Haines & Company, and Cole Information Services directories used in this study were made available through EDR (selected years reviewed: 1923, 1928, 1931, 1932, 1941, 1947, 1949, 1951, 1957, 1961, 1966, 1971, 1976, 1981, 1986, 1993, 1994, 1999, 2004, 2005, 2009, 2014, and 2017) and were reviewed at approximate five-year intervals, if readily available. Current and historical addresses for the site were reviewed. According to the Cook County Assessor’s website, current addresses for the site include: 11500-82 South Michigan Avenue, 11517-31 South State Street, 11562 South Wabash Avenue, and 25-31 East 115th Street.

*XXXX = building with no listing.

The above underlined and italicized listings were identified on the regulatory database and discussed further in Section 4.1, except for the following:

- An on-site historical auto repair, operated at 11522 South Michigan Avenue, was identified as Rosser Wm auto body repair (1941); Al’s Garage (1941); and S&T Repair Service (1947). The 1939 and 1950 Sanborn Maps also identified an auto repair facility. The on-site historical auto repair operations, potentially utilizing petroleum products, during their at least 11 years of operation on the site are considered a REC to the site.

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

- The city directories indicate a listing for the Reading Coal Co. (11524 South Michigan Avenue) at the site from at least 1928 to 1947; Sanborn maps indicated the presence of large coal storage operation from at least 1897 until the sheds were listed as vacant and dilapidated in the 1950 Sanborn Map. This discussed further in Sections 3.3 and 3.6.
- The 1897 to 1975 Sanborn Maps indicated the presence of an on-site lumber yard; city directories included listings for Chicago & Riverdale Lumber Co at 11552 South Michigan Avenue (1928-1966). If the lumber yard treated or stored treated lumber on the site, this would be considered a REC to the site.
- The door and sash factory appeared to be identified as DM Wood Products in the 1951 city directory at 115146 South Michigan Avenue. An on-site historical manufacturer is considered a REC to the site.
- An on-site historical filling/service station (11521 South State Street) was listed in the city directories as Gump Adolph Sr gasoline (1931), Du Bois Bennie service station (1941), State Auto Service (1947), and Al's Service Station (1951). A 1955 CDPH tank record and the 1939 to 1950 Sanborn Maps also indicated the presence of on-site historical USTs. The on-site historical filling station (in operation for at least 27 years), the potential use of petroleum products as a service station, and the absence of records for removal of gasoline USTs are considered RECs to the site.
- A listing for Lyons, John – blacksmith was identified at 11527 South State Street in the 1923 city directory; however, the Sanborn maps and other city directory listings appear to indicate the property as a residence, and therefore this is likely a resident listing with occupation and not considered a REC to the site.
- The east adjacent property, located at 11525 South Michigan Avenue, was listed as a historical filling/service station including: Greenway Charles S Auto Laundry (1928), Rauch Fred gasoline Service station (1928), and Paulson Gustav A auto repairs (1928). The east adjacent property was also identified as a filling station with three USTs on the 1939 Sanborn Map. Based on the proximity to the site, potential use of petroleum products for at least 11 years, and the absence of tank removal records, the off-site historical filling station is considered a REC to the site.
- The west adjoining and east adjacent truck repair shop (11575 South Wabash Avenue) was identified in the city directories as Super J Towing (1993-1994), Otis Henderson (2004), 10 XX (2004), and XOX Charter Bus Service Inc. (2014-2017). During the surrounding area site reconnaissance, XOX Charter Bus Service Inc. was observed to occupy the building. The 1939 Sanborn maps noted the building as a transfer warehouse and the 1950 to 1989 Sanborn Maps indicated the building as trailer factory with lacquer spraying. The historical use of the adjacent property as an historical manufacturing facility and the existing and historical use of the property as truck repair facility and its proximity to the site is considered a REC.
- The west and north adjoining property (23 East 115th Street) was occupied by Illinois Metal Cabinet Co Inc (1947-1951) and Bonell Mfg. Co Die Makers (1947). The large

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

commercial building was indicated as “sheet metal warehouse” at 19-21 East 115th Street on the 1950 Sanborn Map. The historical sheet metal operation on the adjoining property is considered a REC to the site.

- The north adjacent property (11452 South Michigan Avenue) was identified as Bach Bros Clothing (1928) and Calumet Supreme Cleaners (1947-1966). Based on the proximity to the site and potential historical use of chlorinated solvents for at least 29 years, the off-site historical cleaner is considered RECs to the site.
- A east nearby property approximately 100 feet east of the site was identified as Roseland Iron & Metal (1961-1971) and Roseland Tire & Recycling Co. (1994). The property was also identified in the CDPH records for violations of tire storage. The east nearby property is approximately 100 feet east and down-gradient of the site and is not considered a REC to the site.

3.5 Title Search / Environmental Lien Search

Environmental lien and title records for the site were not provided by the client. At the direction of the client, performance of a review of chain of title or environmental liens and Activity and Use Limitations (AULs) was not included as part of the scope of services.

3.6 Previous Reports

Terracon requested the client provide any previous environmental reports they are aware of for the site. The following previous environmental reports were provided by the client and reviewed by Terracon within the scope of the Phase I ESA:

- Phase I Environmental Site Assessment (ESA)
Roseland Plaza
115th Street and Michigan Avenue, Chicago, Illinois
Dated: November 21, 2004
Prepared by: LFR Levine Fricke (LFR)
For: Chicago Department of Environment (CDOE)

The LFR 2004 ESA indicated the subject property to consist of 5 to 6 acres (14 separate parcels) and at that time was improved with “three building structures built the 1950s and used for commercial businesses, undeveloped land, and asphalt driveways and parking areas.” The 2004 ESA indicated that the site was initially developed prior to 1897 and has been occupied by various businesses and residential buildings including, but not limited to the following: Reading Coal Company, a coal storage yard (prior to 1897 to the 1940s); Chicago and Riverdale Lumber Company, lumber storage yard (prior to 1897 to the early 1980s); gasoline service station and auto body repair and paint shop (from after 1911 to the late 1950s); DVM Wood Products, a sash and door facility (from after 1939 to the late 1950s); and Betty Brite Cleaners, a dry cleaning facility (from the late 1950s to at least 2004).

At the time of the 2004 site visit, the following property uses were identified:

PIN #	Address(es)	2004 Property use
25-22-300-063	11500, 11514, and 11516 S Michigan Avenue	Commercial Business – <i>House of Peace Bookstore (vacant) – one-story bookstore with a basement</i> , Plaza Hardware (occupied); asphalt parking lot and driveway
25-22-300-053	11538 and 11542 S Michigan Avenue	Commercial Business – Family Dollar (occupied); asphalt parking lot and driveway
25-22-300-005, -006, -007	11517, 11525, and 11527 S State Street	Commercial Business – <i>Prime Foods (vacant) – former grocer with a basement and large warehouse</i> ; asphalt parking lot and driveway
25-22-300-038, -039, -040	11516, 11518, and 11528 S Michigan Avenue	Commercial Business – Coffee Pot Restaurant (occupied) Coin Laundry (vacant), <i>Betty Bright Cleaners (occupied) – “one-story dry cleaner with a basement boiler room”</i> , Insure One (occupied); asphalt parking lot and driveway
25-22-300-041	11526 S Michigan Ave	asphalt parking lot and driveway
25-22-300-042	11530 S Michigan Ave	asphalt parking lot and driveway
25-22-300-043	11532, 11534, 11538, 11540, and 11544 S Michigan Avenue	Commercial Business – Family Dollar (occupied), Ted’s Beauty Supply (occupied), Top Nails (occupied), Jane’s Video Store (vacant)
25-22-300-019	11562 S Wabash Ave	asphalt parking lot and driveway, and undeveloped land
25-22-300-068	11552 S Michigan Ave	Commercial Business – Church’s Chicken (occupied); asphalt parking lot and driveway; undeveloped land
25-22-300-058	11578 S Michigan Ave	undeveloped land

In 2004, LFR noted the following during the site reconnaissance:

- Betty Brite Cleaners, located at 11518 South Michigan Avenue, had fair to poor general housekeeping practices with dark staining visible on the concrete floor which was in fair to poor condition with visible cracks in the general vicinity of the dry cleaning machines and hazardous waste storage drum. Additionally, LFR identified an open floor drain, which reportedly discharges to the sanitary sewer, was visible on the concrete floor adjacent to the drum and dry cleaning machines. Employees indicated that one of the dry cleaning machines was malfunctioning and that the perchloroethylene (PERC) was transferred to the operating machine via a hose by facility staff. During the time of operation, approximately 30 gallons of PERC was delivered to the facility every three months. Waste “sludge”, waste solids, and used

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

- filters from the dry cleaning machine were stored in a plastic 55-gallon drum on a containment pad and reportedly picked up three to four times per year.
- Suspect UST vent and fill pipes were observed at the site including the following location details:
 - “One suspect fill and vent pipe on the exterior wall of the northwest corner of the former Prime Foods building.
 - A suspect vent pipe was visible in the north storage and employee portion in the interior of the former Prime Foods building. The suspect vent pipe appears formerly extend into a pipe or join protruding from the floor.
 - Five suspect UST fill pipes and one vent pipe were visible on the exterior was adjacent to the alley, and to the north of Betty Brite Cleaners and west of the Plaza Hardware. One of the vent pipes appeared to be filled with concrete.
 - The basement of the House of Peace Bookstore contained five suspect fill pipes protruding from the western exterior wall. The pipes were capped and sealed. No staining was visible on the concrete floor beneath the pipes.
 - A suspect former vent pipe was visible on the exterior wall of the Family Dollar building, LFR observed a concrete patch in the brick wall where the suspect vent pipe likely extended into the building. LFR did not observed any evidence of an AST or UST present within the inside of the building. No staining was visible on the interior concrete floor or exterior asphalt surface.”
 - Additionally noted, based on a review of City of Chicago Building Department records, at least ten (10) USTs were reportedly installed at the site in the late 1950s. A historical “gasoline service station” was shown to have three gasoline USTs with one 1,000-gallon gasoline UST replaced in 1955. An unknown number of USTs were removed from the basement of House of Peace Bookstore (11500 South Michigan Avenue) in the 1950s and 1960s. A former commercial building north of the alley was “shown to contain UST(s)”. Records of removal were not identified for the site (aside from 11500 S Michigan Avenue) and the adjacent north property.
 - “Miscellaneous dumping, including numerous 5-gallon buckets, used tires, furniture, construction debris, and telephone poles,” was observed along the southern portion of the site.
 - “A large, slightly depressed area that contained numerous pieces of coal, slag, and cinders was also observed in this area, which historically contained coal storage sheds and rail spur.”
 - “Significant water and mold damage was observed in the basement of the House of Peace Bookstore located at 11500 South Michigan Avenue.” A non-operating sump pump was observed in the basement during the 2004 site reconnaissance.

The LFR 2004 ESA report identified the following RECs in conjunction with the site:

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

- “A dry cleaning facility that operated for approximately 25 years.
- The presence of an unknown number of potential USTs at the site and adjacent facility.
- The presence of illegal dumping areas, which include an area of coal, slag, and cinders.
- The potential presence of asbestos containing materials with the buildings.”

The following memorandum was issued following the review of the Phase I ESA:

- Memorandum RE: 115th and Michigan – Roseland Plaza A Phase I ESA
Dated: December 6, 2004
To: Karen Forte, Department of Planning and Development
From: Dave Graham, P.G., Chicago Department of Environment (CDOE)

The December CDOE 2004 Memorandum summarized the RECs including:

- 11518 S Michigan Avenue has been occupied by a dry cleaner for at least 25 years with concerns about general housekeeping of process chemicals (PERC).
- Numerous suspect locations of USTs were identified.
- 11521 S State Street was historically a gas station and three USTs are suspected to still be present at the property.
- A coal storage company operated on the majority of the site from 1897 to the 1940s.
- Several buildings have suspect asbestos containing materials.
- Fly-dumping was observed on the property.

The December 2004 Memorandum recommended that limited Phase II ESA be conducted on the property to determine if RECs have impacted the property’s soil and groundwater. The Phase II should include sampling of suspect asbestos containing materials, a lead survey, and volume of such materials.

Terracon concurs with the identified RECs in the 2004 Phase I ESA report. Information from these reports have been incorporated into this report, as applicable, and unless, otherwise noted based on additional research, the identified RECs remain a concern for the site. Copies of reports are provided in Appendix I.

4.0 REGULATORY REVIEW

Regulatory database information was provided by EDR, a contract information services company. Information in this section is subject to the accuracy of the data provided by the information services company and the date at which the information is updated, and the scope herein did not include confirmation of facilities listed as "unmappable" by regulatory databases.

4.1 Regulatory Database Search and Significant Findings

Listed below are the facility listings identified on federal, state/tribal, and private databases within the ASTM-required search distances from the approximate site boundaries, as appropriate. Database definition, descriptions, and the database search report are included in Appendix E – Regulatory Database Information.

Federal and State/Tribal Databases

Database	Description	Radius (Miles)	Number of Facilities
Federal			
SEMS	The Superfund Enterprise Management System (SEMS) tracks sites that have interest under the Federal Superfund Program based on available information.	0.5	0
SEMS-Archive	The Superfund Enterprise Management System Archive (SEMS-Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information.	0.5	0
NPL	The National Priorities List (NPL) is the EPA's database of uncontrolled or abandoned hazardous waste facilities that have been listed for priority remedial actions under the Superfund Program.	1.0	0
CERCLIS/ CERCLIS- NFRAP	The CERCLIS database is a compilation of facilities which the EPA has investigated or is currently investigating for a release or threatened release of hazardous substances pursuant to the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) of 1980. NFRAP (No Further Remedial Action Planned) refers to facilities that have been removed and archived from its inventory of sites.	0.5	0
ERNS	The Emergency Response Notification System (ERNS) is a listing compiled by the EPA on reported releases of petroleum and hazardous substances to the air, soil, and/or water.	Site	0
RCRA Generators	The Resource Conservation and Recovery Act (RCRA) Generators database, maintained by the EPA, lists facilities that generate hazardous waste as part of their normal business practices. Generators are listed as large, small, or conditionally exempt. Large quantity generators (LQG) produce at least 1000 kg/month of non-acutely hazardous waste or 1 kg/month of acutely hazardous waste. Small quantity generators (SQG) produce 100-1000 kg/month of non-acutely hazardous waste. Conditionally exempt small quantity generators (CESQG) are those that generate less than 100 kg/month of non-acutely hazardous waste.	Site and adjoining properties	2

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

Database	Description	Radius (Miles)	Number of Facilities
RCRA CORRACTS	The EPA maintains a database of RCRA facilities that are undergoing “corrective action”. A “corrective action” order is issued when there has been a release of hazardous waste or constituents into the environment from a RCRA facility.	1.0	5
RCRA TSDs	The RCRA TSD Database is a compilation by the EPA of facilities which reportedly treat, store or dispose of hazardous waste.	0.5	0
RCRA NonGen	RCRA Non-Generators do not presently generate hazardous waste.	Site and adjoining property	3
US Brownfields	Abandoned or underused industrial and/or commercial properties that are contaminated (or thought to be contaminated) and have an active potential for redevelopment.	0.5	2
State/Tribal			
SSU	The Illinois Environmental Protection Agency (IEPA) maintains a database of state equivalent CERCLIS list sites (SSU) that are planned for cleanup using state funds or by potentially responsible parties.	0.5	3
SRP	The IEPA maintains a database that contains sites which have voluntarily enrolled in the Site Remediation Program (SRP). This program provides oversight of the site assessment and site remediation performed by the voluntary parties. The intent of this program is to provide applicants the opportunity to receive review and evaluation services, technical assistance and no further remediation determinations from the IEPA.	0.5	0
LUST	The IEPA maintains a database of sites with documented releases from USTs known as Leaking Underground Storage Tanks (LUST) facilities.	0.5	5
SWF/LF	The IEPA maintains a database of Solid Waste Disposal Facilities located within Illinois. The database information may include the facility name, class, operation type, area, estimated operational life, and owner.	0.5	1
NIPC	Northeastern Illinois Planning Commission (NIPC) is an inventory of active and inactive solid waste disposal site, based on state, local government, and historical archive data.	0.5	0
UST	The Office of the State Fire Marshal (OSFM) has compiled a database of registered USTs, which may include information such as the owner, contents, age and location of the USTs.	Site and adjoining properties	2
IC/EC	Institutional controls (ICs) consist of legal or administrative restrictions on land use and/or other activities which limit exposure to contamination. Engineering controls (ECs) include those with engineered barriers (e.g., asphalt or concrete paving).	0.5	0

Proprietary Database			
EDR Historical Auto Stations	A list of Historical Auto stations has been compiled by EDR through a search of selected national collections of business directories for keywords such as gas station, automotive repair, etc.	0.25	8
EDR Historical Cleaners	A list of Historical Cleaners has been compiled by EDR through a search of selected national collections of business directories for keywords such as dry cleaners, laundry, wash & dry, etc.	0.25	9
EDR Manufactured Gas Plant	A list of Manufactured Gas Plants has been compiled by EDR through a search of selected national collections of business directories for keywords such as gas plant, manufactured gas plant, etc.	1.0	1

The following table summarizes the site-specific information provided by the database and/or gathered by this office for identified facilities within approximately 300 feet of the site. Facilities are listed in order of proximity to the site. Additional discussion for selected facilities may follow the summary table.

Listed Facilities

Facility Name and Location	Estimated Distance/Direction/Topographic Gradient²	Database Listings
25 East 115 th Street	Site (north)	Chicago ENV, FINDS

Unnamed (25 East 115th Street)

The on-site property, located at 25 East 115th Street, was identified on the Chicago ENV, FINDS, and EDR historical cleaner regulatory databases. Based on a review of historical resources, this appears to refer to a historical commercial building which is no longer present on the site. The database listing is related to the Chicago Department of Public Health (CDPH) database listings discussed in detail in Section 4.2.1. The database information for the 25 East 115th Street address was related to 2009 demolition information. The property was also identified on the FINDS number 110037885189 in the Illinois - Agency Compliance And Enforcement System (ACES); however, no further information was given.

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

Historical resources indicated a gasoline tank (presumably an UST) at the rear (south) of the property (on PIN 25-22-300-032); however, records of tank removal were not identified in the course of this assessment. This is considered a REC to the site.

Asdooraian Danl (25 East 115th Street)

The on-site historical business was identified as a historical carpet cleaners and layers in 1928 in the regulatory database and identified as Asdooraian Danl rug cleaner in the 1928 city directory. The building was identified on the 1897 to 2004 Sanborn maps as a store/retail building. Based on the potential usage of chlorinated solvents, the former on-site Danl Asdooraian cleaners constitutes a REC.

Unnamed (29 East 115th Street)

The on-site property, located at 29 East 115th Street, was identified on the Chicago ENV and FINDS regulatory databases. Based on a review of historical resources, this appears to refer to a historical commercial building which is no longer present on the site. The database listing is related to the CDPH database listings discussed in detail in Section 4.2.1. The database information for the 29 East 115th Street address was related to 2009 demolition information. The property was also identified on the FINDS number 110037885198 in the Illinois - ACES; however, no further information was given.

Unnamed (11517 South State Street)

The on-site property, located at 11517 South State Street, was identified on the Chicago ENV regulatory database. Based on a review of historical resources, this appears to refer to a historical commercial building which is no longer present on the site. The database listing is related to the CDPH database listings discussed in detail in Section 4.2.1. The database information for the 11517 South State Street address was related to 2006 demolition information.

Unnamed/Cuter Sefer Oil (11521 South State Street)

The on-site property, located at 11521 South State Street, was identified on the Chicago ENV and TANKS regulatory database. Based on a review of historical resources, this appears to refer to a historical commercial building which is no longer present on the site. The database listing is related to the CDPH database listings discussed in detail in Section 4.2.1. The database information for the 11521 South State Street address was related to 2013 to 2015 periodic checks on the city owned property for illegal dumping. Prior to 2013, the property had an issue with illegal fly dumping at the vacant lot; however, the notes from the periodic inspections did not indicate any releases of environmental concern.

The 11521 South State Street property was identified in the city directories as occupied by a historical filling/service station from at least 1931 to 1951. The TANKS listing for Cuter Sefer Oil indicated the replacement of one 1,000-gallon gasoline UST in 1955; the 1939 and 1950

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

Sanborn maps indicated three gasoline tanks at the filling station. By 1959, the filling station buildings were no longer apparent. Records of (up to three) USTs removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. The on-site historical filling station (in operation for at least 27 years), the potential use of petroleum products as a service station, and the absence of records for removal of gasoline USTs are considered RECs to the site.

Oak Park National Bank (11500 South Michigan Avenue)

The on-site property, located at 11500 South Michigan Avenue, was identified on the Chicago ENV and TANKS regulatory database. Based on a review of historical resources, this appears to refer to a historical retail building which is no longer present on the site. City directories indicated the property was occupied by a drug store from the 1920 until 1999 and then by the house of Peace Book store. The ENV database listing is related to the CDPH database listings discussed in detail in Section 4.2.1. The ENV database information for the 11500 South Michigan Avenue address was related to 2004 to 2006 demolition.

The TANKS database indicated the May 28, 1958 installation of two 315-gallon, one 1,000-gallon, one 2,000-gallon (with enclosure), and five 315-gallon fuel oil USTs, and the March 18, 1959 installation one 2,000-gallon and five 300-gallon fuel oil tanks (final (date) not given (n/g)). It is possible that the five 315-gallon and five 300-gallon fuel oil USTs refer to the same tanks. A February 1, 2000 inspection noted that "oil tank reported in the basement"; however, the inspector indicated that he did not see an oil tank in the "entire basement". The prior 2004 Phase I ESA, conducted prior to the demolition of the former retail strip mall, reported several suspect fill and vent pipes along the rear (west and north) sides of the building; however, records of USTs removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. The absence of reported removal records indicates the potential for up to ten orphan USTs remaining on the site which is considered a REC to the site.

Betty Brite Cleaners / Flair Cleaners (11518 South Michigan Avenue)

The on-site historical cleaner (addressed as 11518 or 11518 D South Michigan Avenue) was identified on the EDR Hist Cleaner, RCRA-VSQQ, FINDS, ECHO, BOL, and Chicago ENV regulatory databases. According to the database report, the facility operated as Rose Plaza Launderette (laundries self-service) in 1981, Betty Brite Cleaners (dry cleaners) from 1981 to 1997, Lee Cleaners & Laundry (cleaners) in 1999, and Automatic Washboard Inc. (laundries self-service) in 2003. The city directories identified Flair Cleaners (1966 to 1976), Rose Plaza Launderette (1976), Betty Brite Cleaners (1994), Automatic Washboard Coin Op (1994 to 1999), Cleaners & Laundry (1999), and Lee Cleaners & Laundry (1999). According to the prior 2004 ESA, the dry cleaner was operating in 2004.

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

Betty Brite Cleaners was identified as a RCRA-VSQG/CESQG facility, generating less than 100 kilograms (kg) of tetrachloroethylene (PCE) and trichloroethylene (TCE) during any calendar month and accumulating less than 100 kg of PCE and TCE at any time. The EDR report did not indicate violations for the site; however, as discussed in Section 4.2.1, the CDPH records indicated that the former dry cleaners had been previously inspected for reported dumping of the chemicals into the sewers; the inspector did not report findings that indicated the violation. He further reported the presence of storage of PERC at the facility. The prior 2004 Phase I ESA reported poor housekeeping conditions at the dry cleaning facility, which was in operation in 2004.

Based on the known presence of historical dry cleaning operations with use of chlorinated solvents, and duration of operations (at least 38 years), the historical on-site cleaners constitutes a REC to the site.

Rays Cleaners (11501 South Michigan Avenue)

The historical business was identified as a historical cleaner in 1981. The property was also identified as Calumet Cleaners on the 1971 to 1976 city directories. Based on the potential historical use of chlorinated solvents for at least 10 years and the property's proximity to the site (approximately 65 feet east), the off-site historical cleaner is considered a REC to the site.

Montana Jigamian (11503 South Michigan Avenue)

The historical business was identified as a historical cleaner of garments, curtains, and draperies in 1928 and as Montana & Jigamian dry cleaners in the 1928 city directory. Based on the potential historical use of chlorinated solvents and the property's proximity to the site (approximately 65 feet east), the off-site historical cleaner is considered a REC to the site.

Irvings Standard / Betty Brite Cleaner (11533 South Michigan Avenue)

The property (located approximately 65 feet east of the site) was identified in the EDR report as a historical auto facility (Irvings Standard) from 1996 to 2000, and in the city directories as Irvings Standard from 1994 to 1999. The Sanborn maps depict a store at this location from at least 1911 to 2004. Records of tanks were not located in association with the address. Although the "Standard" usually indicates a filling station, there is no other evidence to indicate a historical filling station at this location in the 1990s; therefore, the historical auto listing is not considered a REC to the site.

The property was identified as a historical cleaner from 2005 to 2008. Based on the year and name of the facility, it appears the Betty Brite Cleaner moved after the demolition of the site buildings. A dry cleaning operation was not indicated at the property during the surrounding site reconnaissance, and the facility is not listed as RCRA generator in the regulatory database for the 11533 South Michigan address. Based on the short duration of operation during the early 2000s, the historical cleaner listing is not considered a REC to the site.

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

Wah Louis (11535 South Michigan Avenue)

The property was identified as a Chinese Laundry in 1923; however, the use of chlorinated solvents in laundry operations was not common until after the 1930s, and therefore, this not considered a concern for the site.

Bobs Super 100/0707 Clark Service Station/Clark & Oil Refining (11555 S Michigan Avenue)

The historical filling/service station, located approximately 65 feet east of the site was identified on the EDR Hist Auto, UST, and LUST regulatory databases. The EDR database indicated the property as Bob's Super 100 from 1982 until 1992. The property was also identified in the 1975 to 1989 Sanborn Maps as a filling station. The OSFM database, OSFM FOIA, and CDPH records indicated the historical presence of two 6,000-gallon gasoline USTs (installed in 1960) and one 7,500-gallon gasoline UST (installed in 1971) which were reportedly removed from the Clark Retail Enterprise property in 1991. LUST incident # 912512 was assigned to the property; the IEPA issued a No Further Remediation letter on January 9, 1995 after "miscellaneous correspondence was received." Reviewable documents were not available on the IEPA Doc Explorer website. A FOIA request was send to the IEPA for further details of the closure; however, at the issuance of this report, a response has not been received. Based on the absence of reviewable information for the off-site historical filling station, this is considered a REC to the site.

Gorgodian Samuel (11453 South Michigan Avenue)

The property, located approximately 110 feet northeast, was identified on the regulatory database as historical hat cleaner in 1923. However, the use of chlorinated solvents in laundry operations was not common until after the 1930s; and therefore, this not considered a concern for the site.

Curtis Elementary / Curtis School (32 East 115th Street)

The adjacent northwest (approximately 130 feet) property was identified on the RCRA-VSQQ and UST regulatory database. The RCRA-VSQQ listing was indicated to be for cadmium, lead and mercury; violations were not indicated for the property. The school had one 5,000-gallon heating oil tank removed from the property in 2001. Based on a review of the OSFM FOIA documents, evidence of a release was not indicated. Based on the regulatory status and distance from the site, this is not considered a REC to the site.

Goodyear Auto Service/Goodyear Tire & Rubber /Tadros, Musa (11442 S Michigan Avenue)

The property located approximately 180 feet north of the site was identified on the regulatory UST and LUST databases. The facility had one 500-gallon used oil UST removed in 1993. LUST incident #960704 was assigned to the property; the IEPA issued a NFR letter on October 21, 1998 after a review of a Corrective Action Completion Report, dated April 2, 1997. Reviewable documents were not available on the IEPA Doc Explorer website. A FOIA request was sent to the IEPA for further details of the closure; however, at the issuance of this report,

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

a response has not been received. Based on the distance from the site, record of corrective action completion, and regulatory status, this is not considered a REC to the site.

Abandoned Gas Station (2 West 115th Street)

The historical service station, located approximately 250 feet north-northwest (from the west portion of the site) and 300 feet west-northwest (from the north portion of the site), was identified on the UST and LUST databases. Two former USTs (one 4,000-gallon gasoline UST and one 3,000-gallon gasoline UST) were removed from the property in 2011. The available IEPA Doc Explorer file indicated that the USTs were taken out of service prior to 1974. The IEPA issued LUST incident # 20111008 to the property. A letter to the IEPA, dated September 28, 2011, indicated that the property owner had requested a pre-1974 exemption from LUST closure. The property remains an open LUST incident; however, based on the distance (approximately 250 to 300 feet) from the site, this is unlikely to have impacted the site and is not considered a REC at this time.

Hahn Stanley (11624 South Michigan Avenue)

The historical auto property is located approximately 260 feet south and topographically down-gradient of the site. Based on the distance and gradient, this is not considered a REC to the site.

Remaining Facilities

Remaining listed facilities do not constitute RECs at this time based upon a minimum distance of approximately 300 feet from the site, facility information, regulatory status, or topographic gradient relative to the site.

Unmapped facilities are those that do not contain sufficient address or location information to evaluate the facility listing locations relative to the site. The EDR report listed three listings in the unmapped section. Determining the location of unmapped facility is beyond the scope of this assessment; however, this facility was not identified as the site or adjacent properties.

4.2 Freedom of Information Act (FOIA) Requests and Significant Findings

Below is a summary of the requests made for information from local and state regulatory agencies regarding the PINs and adjoining properties.

4.2.1 City of Chicago

The City of Chicago Data Portal online records (Environmental Complaints, Environmental Inspections, Environmental Enforcement, Storage Tanks, Asbestos and Demolition Notification, Environmental Permits) were provided by AIS and reviewed during this

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

assessment. The following is a summary of the information obtained from the Data Portal findings:

Address	Database	Date	Notes
11500 South Michigan Ave	Environmental inspections	12-09-2004 to 05-17-2006	Demolition progress
House of Peace 11500 South Michigan Ave	Environmental complaints	02-01-2000	Oil tank reported in basement office space; however, inspector did not see an oil tank in the "entire basement"
Oak Park National Bank 11500 South Michigan Ave	Pre-1992 USTs	05-28-1958	<u>Install two 315-gallon, one 1,000-gallon, one 2,000-gallon (with enclosure), and five 315-gallon fuel oil USTs</u>
		03-18-1959	<u>Install one 2,000-gallon and five 300-gallon fuel oil tanks (final n/g)</u>
Betty Brite Cleaners 11518 South Michigan Ave	Environmental inspections & Environmental complaints	10-23-2002	Inspection indicated volume of "PERC" for 2001 was 150 gallons and "had chemical disposal as waste disposal agent."
		02-26-2004	"All records available for inspection."
		08-03-2004 & 08-12-2004	<u>Respond to complaint of Betty Bright Cleaners pouring chemical down the drain into sewers.</u> The sewer appeared dry and filled with dirt. Viewed receipts for PERC disposal. Last pick-up was one 55-gallon drum. Inspector did not observe evidence of illegal dumping of PERC.
Church's Chicken 11552 South Michigan Ave	Environmental inspections & Environmental complaints	09-02-2003	New exhaust system after smoke complaint reported
11564 South Michigan Ave	Environmental complaints	08-24-1994	Fly dumping reported
11517 South State Street	Environmental inspections	02-21-2006	Demolition (no activity).
11521 South State Street	Environmental Inspections	12-20-2013 to 02-20-2015	City owned lot where dumping has taken place; records of monitoring for illegal dumping.
Cuter Sefer Oil 11521 South State Street	Pre-1992 USTs	03-01-1955	<u>Replace one 1,000-gallon gasoline UST.</u>
25 East 115 th Street	Environmental inspections	01-22-2009	Demolition permit. Building is down. Sorting and brick work going on.
	Asbestos notification	12-22-2008	Begin demo.
29 East 115 th Street	Environmental inspections	01-22-2009	Demolition permit. Building is down. Sorting and brick work going on.

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

Address	Database	Date	Notes
	Asbestos notification	12-22-2008	Begin demo.
<u>Rosel and Cleaners</u> 11533 South Michigan Ave (adjacent east)	Environmental inspections	04-20-2005	<u>Inspection of dry cleaner</u> with no notes.
<u>Clark Oil</u> 11555 South Michigan Ave (adjacent east)	Pre-1992 USTs	08-05-1960	<u>Install one 2,00-gallon gasoline tank</u>
		04-06-1971	<u>Inspection one 7,500-gallon gasoline tank</u>
		09-03-1991	<u>Remove two 6,00-gallon and one 7,500-gallon tanks</u>

A review of the Chicago Public Health Department records indicated the following:

- § An environmental inspection for 11500 South Michigan Avenue indicated demolition progress of a building(s) from 2004 until 2006.
- § An environmental inspection records for 25 and 29 East 115th Street indicated demolition of a buildings in 2008/2009.
- § An environmental complaint for 11500 South Michigan Avenue indicated that an oil tank reported in basement office space; however, inspector did not see an oil tank in the “entire basement”.
- § Records for the property at 11500 South Michigan Avenue indicated the permits for installation of two 315-gallon, one 1,000-gallon, one 2,000-gallon (with enclosure), and five 315-gallon fuel oil USTs in 1958, and the installation of one 2,000-gallon and five 300-gallon fuel oil tanks (final n/g) in 1959. These likely were for the entire former retail strip mall.
- § CDPH records of environmental complains and inspection for 11518 South Michigan Avenue indicated the response to a complaint of “pouring chemicals down the drain into the sewers”. The inspector noted: “The sewer appeared dry and filled with dirt. Viewed receipts for PERC disposal. Last pick-up was one 55-gallon drum. Inspector did not observe evidence of illegal dumping of PERC.”
- § A Pre-1992 UST database indicated a permit, dated March 1, 1995, for the replacement (thus like the removal of one UST and installation of one UST) for one 1,000-gallon gasoline tank at 11521 South State Street. This appears to be related to the filling/service station that operated on the site from at least 1939 to the late 1950s.
- § Records for the historical adjacent east dry cleaner and filling station were also reviewed. They are discussed further in Section 4.1.

A review of the City of Chicago Fire Department (CFD) FOIA response indicated the following:

- § An undated permit for removal of one 1,000-gallon tank from a “station” located at 39 East 115th Street.
- § A permit for installation of five 315 gallon, two 315-gallon, one 1,000-gallon, and one 2,000-gallon fuel oil USTs; the permit indicated that one 2,000-gallon and five 300-gallon fuel oil USTs were installed on March 18, 1959 at a “garage” at 11500-11502 Michigan Avenue. Records of the UST’s removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment.
- § Records for the installation of several USTs at the adjacent east property “Clark Oil Refine” (11555 South Michigan Avenue) included: two 6,00-gallon gasoline USTs (August 5, 1960), license application for one 12,000-gallon UST (unknown contents) (October 20, 1960), one 7,500-gallon gasoline UST (April 7, 1971), license application for one 19,500-gallon gasoline UST (April 28, 1971), and license application for one 19,500-gallon gasoline UST (November 22, 1971). Records for removal of three USTs were identified in the review of the regulatory database; a LUST incident was assigned to the property, and an NFR letter was issued by the IEPA on January 9, 1995. The property is currently a vacant lot. This was further discussed in Section 4.1.

A FOIA request was submitted to the City of Chicago Department of Buildings (CDOB); however, at the issuance of the is report a response has not been received.

4.2.2 IEPA

A request for records was sent to the IEPA regarding potential RECs concerning the site; however, at the issuance of this report, a response has not been received. Terracon also queried the IEPA Document Explorer, IEPA LUST Incident Tracker, and SRP databases for site listings. The site was not identified on the SRP database or LUST database. A listing for Flair Cleaners (BOL 0316495006) was identified on the IEPA Document Explorer; however, further information was not available for review in the online database.

4.2.3 Office of the State Fire Marshal

The OSFM was contacted via online request regarding information for the site. The OSFM indicated that they did not have records responsive to Terracon’s request of environmental concerns associated with the site. Terracon also queried the OSFM online UST database for site listings, and the site was not identified as a UST facility on the OSFM UST database. However, records for two adjacent properties (Curtis School – 32 East 115th Street and Clark Service Station – 11555 South Michigan Avenue) were provided; these are discussed, as applicable, in Section 4.1.

4.3 Interviews

Ms. Sarah Rubin at the City of Chicago was interviewed regarding information for the site. She had limited knowledge of the property but indicated that the property was formerly occupied by buildings. She provided a copy of a prior 2004 Phase I ESA report for Terracon's review; this was discussed in detail in Section 3.6. She also provided copies of any available AIS/CDPH environmental records. The records were further discussed in Section 4.2.1, as applicable.

5.0 PROPERTY INSPECTION

5.1 Property Reconnaissance

Information contained in this section is based on a visual reconnaissance conducted while walking the perimeter of the site from public accessways on December 16, 2021. The site was observed to consist of seventeen contiguous vacant lots. Exhibit 2 is a diagram of the site and adjoining properties. A GIS PIN Map is included as Exhibit 3. Photo documentation of the site at the time of the visual reconnaissance is provided in Appendix G – Photographs.

5.1.1 Hazardous/Petroleum Products

Indications of hazardous materials were not observed on the site during the reconnaissance.

5.1.2 Tanks/Vents/Fill Pipes

Indications of UST system, vent/fill pipes, or associated features were not observed on the site from public vantage points (sidewalks) surrounding the site.

5.1.3 Building Foundations

Terracon did observe evidence of remnant building foundations on the site during the reconnaissance on the north and southeast portions of the site. Portions of the asphalt-paved parking lots remain across the site.

5.1.4 Odors/Staining, etc.

Some *de minimis* staining was observed on the asphalt pavement on the northeast portion of the site; however, obvious indications of staining or odors indicative of a release of hazardous materials or petroleum products were not observed during the reconnaissance.

5.1.5 Drums/Other Containers

Drums or other containers were not observed on the site.

5.1.6 Debris

The vacant lots have some evidence of windblown urban debris at the time of the site reconnaissance and remnant building materials on the north portion of the site. Evidence of

staining or releases of hazardous materials or petroleum products was not observed within the vicinity.

5.1.7 Asbestos-Containing Material

Buildings were not observed on the site. Evidence of asbestos-containing material was not observed.

5.1.8 Transformers

Several pole-mounted transformers were observed on the north and southeast portion of the site. Evidence of staining or releases was not observed. Indications of polychlorinated biphenyls (PCB) content were not identified from our ground-level observations. Transformers typically contain mineral oil, which contain PCBs and could be considered “PCB contaminated”.

ComEd maintains responsibility for the transformers, and if transformers were “PCB contaminated,” the utility company is not required to replace the transformers fluids until a release is identified. However, evidence of current or prior release was not observed in the vicinity of the observed transformer during the site reconnaissance.

5.1.9 Stressed Vegetation

Aside from the dormant conditions of the vegetation typical in December, significant evidence of stressed vegetation was not observed on the site.

5.1.10 Other Notable Features

The following other notable features were observed on the site:

- A utility vault was observed on the northeast portion of the site.
- A black iron fence was observed on the north portion of the site along 115th Street.

Additionally, vehicles and equipment were parked on the west portion of the site at the time of the site reconnaissance as a utility crew was working on a gas leak/road construction project on a portion of South State Street which adjoins the site to the west. Evidence of a release of hazardous materials or petroleum products was not observed on the property in the vicinity of the vehicles. However, the parking of vehicles on the site limited visual observation of the ground surface during the site reconnaissance.

5.2 Adjacent Properties Reconnaissance

Observations described in the following subsections were made from public vantage points surrounding the site.

5.2.1 Hazardous/Petroleum Products

Indications of hazardous or petroleum products on adjoining properties were not observed.

5.2.2 Tanks/Vents/Fill Pipes

Indications of UST system, vent/fill pipes, or associated features were not observed on adjoining properties.

5.2.3 Building Foundations

Indications of building foundations were observed on adjoining properties that formerly had structures including the adjoining north and east property (formerly addressed as 19-21 East 115th Street).

5.2.4 Odors/Staining, etc.

Evidence of staining resulting from a spill, leak, or release of hazardous materials or petroleum products was not observed on the ground surface of the adjoining properties. Unusual odors were not noted during the adjoining property reconnaissance.

5.2.5 Drums/Other Containers

Evidence of drums and other containers was not observed on the adjoining properties.

5.2.6 Debris

Windblown urban debris was generally observed on the other adjacent properties; however, evidence of staining or releases of hazardous materials or petroleum products was not observed within the vicinity.

5.2.7 Transformers

Indications of leaks from transformers were not observed on the adjacent properties.

5.2.8 Stressed Vegetation

Stressed vegetation resulting from a release of hazardous materials or petroleum products was not observed on adjacent properties.

5.2.9 Other Notable Features

A utility crew was working on a gas leak/road construction project on South State Street. Vehicles and equipment were parked on the west portion of the site at the time of the site reconnaissance. Evidence of a release of hazardous materials or petroleum products was not observed on the adjacent properties.

6.0 CONCLUSIONS

This Phase I ESA was performed in accordance with TOR No. 20-AISEHS-0002 and was conducted consistent with the procedures included in ASTM E1527-13, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*. This Phase I ESA was conducted under the supervision or responsible charge of Rachele K.

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

Christian, Environmental Professional. Salvatore Consalvi of Yung Environmental (Yung) performed the site reconnaissance on December 16, 2021.

A cursory summary of findings is provided below. It should be recognized that details were not included or fully developed in this section, and the report must be read in its entirety for a comprehensive understanding of the items contained herein.

§ The site consists of seventeen contiguous parcels totaling approximately 6.04 acres or 263,101 square feet (sq. ft.) of vacant land. The site encompasses the following:

Site PIN	Site Addresses	Acreage (sq. ft.)	Notes
25-22-300-005	11517 S State Street	19,293	West parcels (along South State Street)
25-22-300-006	11525 S State Street	8,848	
25-22-300-007	11527 S State Street	19,912	
25-22-300-019	11562 S Wabash Avenue*	26,344	SW parcel (north & south of railroad tracks)
25-22-300-063	11516 S Michigan Avenue	26,011	Northeast parcel
25-22-300-038	11516 S Michigan Avenue	3,316	East parcels (along South Michigan Avenue)
25-22-300-039	11516 S Michigan Avenue	5,550	
25-22-300-040	11528 S Michigan Avenue	8,938	
25-22-300-041	11526 S Michigan Avenue	18,061	
25-22-300-042	11530 S Michigan Avenue	9,123	
25-22-300-043	11534 S Michigan Avenue	20,212	
25-22-300-053	11542 S Michigan Avenue	3,077	
25-22-300-068	11552 S Michigan Avenue	36,108	
25-22-300-058	11578 S Michigan Ave	18,739	
25-22-300-031	25 E 115 th St	4,560	North parcels (along East 115 th Street)
25-22-300-032	29 E 115 th St	4,062	
25-22-300-033	31 E 115 th St	4,603	
		Total: 263,101 sq. ft. or 6.04 acres	

*The Cook County GIS indicated the address as 11562 S State Street; however, the correct address provided by the client was 11562 South Wabash Avenue.

Some addresses have changed over the years. Historical addresses were identified for some of the parcels. Refer to Section 3.4 for a summary of historical addresses.

§ Historically, the west parcels (along South State Street) appeared occupied by dwellings, a hay & feed store, and coal/woodsheds by 1897; however, based on the topographic maps, the area appeared as an urban development by at least 1892. In 1911, dwellings

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

occupied the northwest parcels. From at least 1931 until 1951 a filling/service station occupied the northwest portion of the site. The Reading Co. Coal Yard, a large coal storage operation with rail spurs, was indicated on the southwest and south-central portions of the site from at least 1911 to the 1940s with the former coal storage buildings noted as dilapidated and vacant by 1950. From 1959 until 2005-2006, the west parcels were improved with a parking lot and industrial building occupied by food and tea operations. The west portion of the site has appeared as vacant land and/or paved parking lot from 2007 to the present.

- § Historically, the north parcels (along East 115th Street) appeared occupied by dwellings and retail structures from at least 1897 until the 1920s; however, based on the topographic maps, the area appeared as an urban development by at least 1892. From the 1930s to the 2000s, the north parcels were occupied by mixed residential and retail/commercial structures and have appeared as vacant land with remnant building foundations from 2007 to the present.
- § Historically, the northeast parcel (southwest corner of East 115th Street and South Michigan Avenue) appeared occupied by dwellings and retail structures from at least 1897 until 1951; however, based on the topographic maps, the area appeared as an urban development by at least 1892. From 1959 to the 2000s, the northeast parcel was occupied by a retail strip mall with various occupants including a dry cleaner operation (from 1966 to 2005). The parcel has appeared as vacant land with remnant building foundations and parking lot from 2007 to the present.
- § Historically, the east parcels (along South Michigan Avenue) appeared occupied by dwellings, retail stores, a church, and lumber yard by at least 1897; however, based on the topographic maps, the area appeared as an urban development by at least 1892. By 1911, the east parcels were developed with a dwelling, office, retail stores, a school, a church, and lumberyard with portions of the Reading Co. Coal operation on the west portion of the parcels. By 1939, the school and church were no longer apparent and an auto garage was noted. By the 1950s, parcels were occupied by a dwelling, retail stores, an auto garage, lumber yard, and portion of the vacant, dilapidated coal operation buildings. By 1959 to the 1980s, a portion of the retail strip mall, parking lot, a commercial/industrial building, and lumber yard occupied the east parcels. From the late 1980s until 2005-2006, the east parcels were improved with a portion of the retail strip mall which included a dry cleaning operation (1966-2005), parking lot, a multi-unit commercial building, and restaurant structure. The east parcels have appeared as vacant land with remnant building foundations and parking lot remnants from 2007 to the present.
- § Historically, the two portions of the south parcels (south of the railroad tracks) appeared as vacant land and/or heavily vegetated land from at least 1897 to the present.

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

- § The following on-site recognized environmental conditions (RECs) were identified during the historical documentation review:
- The on-site property (Oak Park National Bank at 11500 South Michigan Avenue) was identified on the regulatory database. Based on a review of historical resources, this appears to refer to a historical retail building which is no longer present on the site. City directories indicated the property was occupied by a drug store from the 1920 until 1999 and then by the House of Peace Book store. The Chicago Department of Public Health (CDPH) database records indicated the May 28, 1958 installation of two 315-gallon, one 1,000-gallon, one 2,000-gallon (with enclosure), and five 315-gallon fuel oil underground storage tanks (USTs), and the March 18, 1959 installation of one 2,000-gallon and five 300-gallon fuel oil tanks (final n/g). It is possible that the five 315-gallon and five 300-gallon fuel oil USTs refer to the same tanks. A February 1, 2000 inspection noted that “oil tank reported in the basement”; however, the inspector indicated that he did not see an oil tank in the “entire basement”. The prior 2004 Phase I ESA, conducted prior to the demolition of the former retail strip mall, reported several suspect fill and vent pipes along the exterior rear (west and north) sides of the building; the suspect pipe locations are described in detail in Section 3.6. Records of USTs removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. The absence of reported removal records indicates the potential for up to ten orphan USTs remaining on the site which is considered a REC to the site.
 - The on-site historical cleaner (addressed as 11518 South Michigan Avenue) was identified in the regulatory databases. The facility was occupied by Flair Cleaners (1966-1976), Rose Plaza Launderette (1976-1981), Betty Brite Cleaners (1981 - 1997), Automatic Washboard Coin Op (1994-1999), Cleaners & Laundry (1999), and Lee Cleaners & Laundry (1999). According to the prior 2004 ESA, the dry cleaner was still operating in 2004. Betty Brite Cleaners was identified as a Resource Conservation and Recovery Act (RCRA) Very Small or Conditionally Exempt Small Quantity Generator (RCRA-VSQG/CESQG) facility, generating less than 100 kilograms (kg) of tetrachloroethylene (PCE) and trichloroethylene (TCE) during any calendar month and accumulating less than 100 kg of PCE and TCE at any time. The EDR report did not indicate violations for the site; however, as discussed in Section 4.2.1, the CDPH records indicated that the former dry cleaners had been previously inspected for reported dumping of the chemicals into the sewers; the inspector did not report findings that indicated the violation. He further reported the presence of storage of perchloroethylene (PERC) at the facility. The prior 2004 Phase I ESA reported poor housekeeping conditions at the dry cleaning facility, which was in operation in 2004. Based on the known presence of historical dry cleaning operations with use of chlorinated solvents, and duration

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

of operations (at least 38 years), the historical on-site cleaner constitutes a REC to the site.

- A gasoline tank was indicated south of the retail/residential structures at 25 East 115th Street on the 1939 to 1950 Sanborn Maps on the north portion of the site. Records of the UST installation and/or removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. This is considered a REC to the site.
- The historical on-site business (Asdooraian Danl at 25 East 115th Street) was identified as a historical carpet cleaners and layers in 1928 in the regulatory database and identified as Asdooraian Danl rug cleaner in the 1928 city directory. The building was identified on the 1897 to 2004 Sanborn maps as a store/retail building. Based on the potential usage of chlorinated solvents, the former on-site Danl Asdooraian cleaners constitutes a REC.
- A door and sash factory, located at 11546 S Michigan Avenue, was indicated on the southeast portion of the site in the 1950 Sanborn Map. The historical on-site manufacturing operations are considered a REC to the site.
- An auto body repair & paint facility (11520-11524 S Michigan Avenue) was identified on the 1939 and 1950 Sanborn Maps. The city directories for 11522 South Michigan Avenue listed Rosser Wm auto body repair (1941), Al's Garage (1941), and S&T Repair Service (1947). The on-site historical auto repair operations, potentially utilizing petroleum products, during their on-site operation for at least 11 years, are considered a REC to the site.
- A filling/service station (11521 South State Street) with three gasoline tanks was indicated on the northwest portion of the site along South State Street on the 1939 to 1950 Sanborn Maps; service station listings were also identified in the city directories from 1931 until 1951. The CDPH records indicated the replacement of one 1,000-gallon gasoline UST in 1955. Records of the (up to three) USTs' removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. The on-site historical filling station (in operation for at least 27 years), the potential use of petroleum products as a filling/service station, and the absence of records for removal of USTs are considered RECs to the site.
- A large coal storage / coal yard with railroad spurs was indicated on the central portion of the site (north of the railroad tracks) on the 1897 to 1939 Sanborn Maps with vacant, dilapidated buildings associated with the operation noted on the 1950 Sanborn Map. Although not observed during the 2021 site reconnaissance, due to access limitations to the former coal yard portion of the site, the prior 2004 Phase I ESA reported evidence of coal, cinders, and slag on the south central portion of

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

the site. If the coal storage yard treated or otherwise processed the coal on the site, this would be considered a REC to the site.

- A lumber yard occupied the southeast portion of the site from at least 1897 to 1975. If the lumber yard treated or stored treated lumber on the site, this would be considered a REC to the site.

§ Adjoining properties appeared as urban development by 1892. From 1911 to the present, urban development surrounding the site consisted of residential dwellings, a school, retail stores, commercial/industrial structures, filling stations, junkyards, and railroad tracks along South Michigan Avenue, East 115th Street, and South State Street appeared present. The area surrounding the south parcels (south of the railroad tracks) have been occupied by mostly residential structures with the exception of warehouse/repair facility and a historical train station from 1897 to the present.

§ The following off-site RECs were identified during the historical documentation review:

- The west and north adjoining property (23 East 115th Street) was occupied by Illinois Metal Cabinet Co Inc (1947-1951) and Bonell Mfg. Co Die Makers (1947). The large commercial building was indicated as “sheet metal warehouse” at 19-21 East 115th Street on the 1950 Sanborn Map. The historical sheet metal operation on the adjoining property is considered a REC to the site.
- The north adjacent property, located at 11452 South Michigan Avenue, was identified as Bach Bros Clothing (1928) and Calumet Supreme Cleaners (1947-1966). Based on the proximity to the site and potential historical use of chlorinated solvents for at least 29 years, the off-site historical cleaner is considered RECs to the site.
- The east adjacent property, located at 11501 South Michigan Avenue, was identified as a historical cleaner from 1971 to 1981. Based the potential historical use of chlorinated solvents for at least 10 years and the property’s proximity to the site (approximately 65 feet east), the off-site historical cleaner is considered a REC to the site.
- The east adjacent property, located at 11503 South Michigan Avenue, was identified as a historical cleaner in 1928. Based the potential historical use of chlorinated solvents and the property’s proximity to the site (approximately 65 feet east), the off-site historical cleaner is considered a REC to the site.
- The east adjacent property, located at 11525 South Michigan Avenue, was listed as a historical filling/service station including: Greenway Charles S Auto Laundry (1928), Rauch Fred gasoline Service Station (1928), and Paulson Gustav A auto

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

repairs (1928). The east adjacent property was also identified as a filling station with three USTs on the 1939 Sanborn Map. Based on the proximity to the site, potential use of petroleum products for at least 11 years, and the absence of tank removal records, the off-site historical filling station is considered RECs to the site.

- The historical filling/service station (Bobs Super 100/0707 Clark Service Station/Clark & Oil Refining (11555 S Michigan Avenue), located approximately 65 feet east of the site was identified on the EDR Hist Auto, UST, and leaking underground storage tank (LUST) regulatory databases. The EDR database indicated the property as Bob's Super 100 from 1982 until 1992. The property was also identified in the 1975 to 1989 Sanborn Maps as a filling station. The OSFM database, Office of the State Fire Marshal (OSFM) Freedom of Information Act (FOIA), and CDPH records indicated the historical presence of two 6,000-gallon gasoline USTs (installed in 1960) and one 7,500-gallon gasoline UST (installed in 1971) which were reportedly removed from the Clark Retail Enterprise property in 1991. LUST incident # 912512 was assigned to the property; the IEPA issued a No Further Remediation (NFR) letter on January 9, 1995 after "miscellaneous correspondence was received." Reviewable documents were not available on the IEPA Doc Explorer website. A FOIA request was sent to the Illinois Environmental Protection Agency (IEPA) for further details of the closure; however, at the issuance of this report, a response has not been received. Based on the absence of reviewable information for the off-site historical filling station, this is considered a REC to the site.
 - The west adjoining and east adjacent truck repair shop (11575 South Wabash Avenue) was identified in the city directories as Super J Towing (1993-1994), Otis Henderson (2004), 10 XX (2004), and XOX Charter Bus Service Inc. (2014-2017). During the surrounding area site reconnaissance, XOX Charter Bus Service Inc. was observed to occupy the building. The 1939 Sanborn maps noted the building as a transfer warehouse and the 1950 to 1989 Sanborn Maps indicated the building as trailer factory with lacquer spraying. The historical use of the adjacent property as an historical manufacturing facility and the existing and historical use of the property as a truck repair facility and its proximity to the site is considered a REC.
 - Railroad tracks have been located south of the main site and north of the south parcels since at least 1911.
- § Terracon reviewed U.S. Fish and Wildlife Service (FWS) National Wetland Inventory (NWI) Maps for visual indicators to assess the likely presence or absence of regulated wetlands on the site. The NWI maps did not indicate the presence of regulated wetland

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

features present on the site. Obvious indications of on-site wetland areas were not observed during the site reconnaissance.

- § It should be noted that the potential presence of “orphan” USTs onsite cannot be entirely eliminated on any property that was previously developed.
- § The site was observed to be vacant during the site reconnaissance. However, remnant building foundations were observed during the site reconnaissance which appear to correlate with historical development of the site.

FINDINGS AND CONCLUSIONS

Terracon has performed this Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-13 of 11500-82 South Michigan Avenue, 11517-31 South State Street, 11562 South Wabash Avenue, and 25-31 East 115th Street, Chicago, Cook County, Illinois, the site. Any exceptions to, or deletions from, this practice are described in Section 1.4 – Limitations and Exceptions of this report. The following evidence of on RECs was identified in connection with the site:

- The on-site property (Oak Park National Bank at 11500 South Michigan Avenue) appears to refer to a historical retail strip mall which is no longer present on the site. The CDPH database indicated the 1958 installation of two 315-gallon, one 1,000-gallon, one 2,000-gallon (with enclosure), and five 315-gallon fuel oil USTs, and 1959 installation one 2,000-gallon and five 300-gallon fuel oil tanks (final n/g). The prior 2004 Phase I ESA, conducted prior to the demolition of the former retail strip mall, reported several suspect fill and vent pipes along the exterior rear (west and north) sides of the building; the suspect pipe locations. Records of USTs removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. The absence of reported removal records indicates the potential for up to ten orphan USTs remaining on the site which is considered a REC to the site.
- The on-site historical cleaner (addressed as 11518 South Michigan Avenue) present from at least 1966 until at least 2004 which reported use/generation of PCE and TCE. The CDPH records indicated that the former dry cleaners had been previously inspected for reported dumping of the chemicals into the sewers; however, the inspector did not report findings that indicated the violation with the presence of storage of PERC at the facility. The prior 2004 Phase I ESA reported poor housekeeping conditions at the dry cleaning facility, which was in operation in 2004. Based on the known presence of historical dry cleaning operations with use of chlorinated solvents, and duration of operations (at least 38 years), the historical on-site cleaner constitutes a REC to the site.

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

- A gasoline tank was indicated south of the retail/residential structures at 25 East 115th Street on the 1939 to 1950 Sanborn Maps on the north portion of the site. Records of the UST installation and/or removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. This is considered a REC to the site.
- The historical on-site business (25 East 115th Street) was identified as a historical carpet cleaners and layers in 1928 in the regulatory database and identified as Asdooraian Danl rug cleaner in the 1928 city directory. The building was identified on the 1897 to 2004 Sanborn maps as a store/retail building. Based on the potential usage of chlorinated solvents, the former on-site cleaner constitutes a REC.
- A filling/service station (11521 South State Street) with three gasoline tanks was indicated on the northwest portion of the site along South State Street from at least 1931 until 1958. The CDPH records indicated the replacement of one 1,000-gallon gasoline UST in 1955. Records of the (up to three) USTs' removal were not identified in the review of the regulatory database, nor in the select review of files completed in the course of this assessment. The on-site historical filling station (in operation for at least 27 years), the potential use of petroleum products as a filling/service station, and the absence of records for removal of USTs are considered RECs to the site.
- A door and sash factory, located at 11546 S Michigan Avenue, was indicated on the southeast portion of the site in the 1950 Sanborn Map. The historical on-site manufacturing operations are considered a REC to the site.
- An auto body repair and paint facility (11520-11524 S Michigan Avenue) was identified on the east portion of the site from at least 1939 until 1958. The on-site historical auto repair operations, potentially utilizing petroleum products, during their on-site operation for at least 11 years, are considered a REC to the site.
- A large coal storage / coal yard with railroad spurs was indicated on the central portion of the site (north of the railroad tracks) on the 1897 to 1939 Sanborn Maps with vacant, dilapidated buildings associated with the operation noted on the 1950 Sanborn Map. Although not observed during the 2021 site reconnaissance, due to access limitations to the former coal yard portion of the site, the prior 2004 Phase I ESA reported evidence of coal, cinders, and slag on the south central portion of the site. If the coal storage yard treated or otherwise processed the coal on the site, this would be considered a REC to the site.

Phase I Environmental Site Assessment

115th & Michigan Ave & S State Street ■ Chicago, Illinois

January 14, 2022 ■ Terracon Project No.: A2217022B

- A lumber yard occupied the southeast portion of the site from at least 1897 to 1975. If the lumber yard treated or stored treated lumber on the site, this would be considered a REC to the site
- The following evidence of on and off-site RECs was identified in connection with the site:
 - The west and north adjoining property (23 East 115th Street) was occupied by Illinois Metal Cabinet Co Inc (1947-1951) and Bonell Mfg. Co Die Makers (1947). The large commercial building was indicated as “sheet metal warehouse” at 19-21 East 115th Street on the 1950 Sanborn Map. The historical sheet metal operation on the adjoining property is considered a REC to the site.
 - The north adjacent property, located at 11452 South Michigan Avenue, was identified as Bach Bros Clothing (1928) and Calumet Supreme Cleaners (1947-1966). Based on the proximity to the site and potential historical use of chlorinated solvents for at least 29 years, the off-site historical cleaner is considered RECs to the site
 - The east adjacent property, located at 11501 South Michigan Avenue, was identified as a historical cleaner from 1971 to 1981. Based the potential historical use of chlorinated solvents for at least 10 years and the property’s proximity to the site (approximately 65 feet east), the off-site historical cleaner is considered a REC to the site.
 - The east adjacent property, located at 11503 South Michigan Avenue, was identified as a historical cleaner in 1928. Based the potential historical use of chlorinated solvents and the property’s proximity to the site (approximately 65 feet east), the off-site historical cleaner is considered a REC to the site.
 - The east adjacent property, located at 11525 South Michigan Avenue, was listed as a historical filling/service station with three UST from at least 1928 until at least 1939. Based on the proximity to the site, potential use of petroleum products for at least 11 years, and the absence of tank removal records, the off-site historical filling station is considered RECs to the site.
 - The historical filling/service station (Bobs Super 100/0707 Clark Service Station/Clark & Oil Refining (11555 S Michigan Avenue), located approximately 65 feet east of the site was identified on the EDR Hist Auto, UST, and LUST regulatory databases. The EDR database indicated the property as Bob’s Super 100 from 1982 until 1992. The property was also identified in the 1975 to 1989 Sanborn Maps as filling station. The OSFM database, OSFM FOIA, and CDPH records indicated the historical presence of two 6,000-gallon gasoline USTs (installed in

1960) and one 7,500-gallon gasoline UST (installed in 1971) which were reportedly removed from the Clark Retail Enterprise property in 1991. LUST incident # 912512 was assigned to the property; the IEPA issued a NFR letter on January 9, 1995 after “miscellaneous correspondence was received.” Reviewable documents were not available on the IEPA Doc Explorer website. A FOIA request was sent to the IEPA for further details of the closure; however, at the issuance of this report, a response has not been received. Based on the absence of reviewable information for the off-site historical filling station, this is considered a REC to the site.

- The west adjoining and east adjacent truck repair shop (11575 South Wabash Avenue) was identified in the city directories as Super J Towing (1993-1994), Otis Henderson (2004), 10 XX (2004), and XOX Charter Bus Service Inc. (2014-2017). During the surrounding area site reconnaissance, XOX Charter Bus Service Inc. was observed to occupy the building. The 1939 Sanborn maps noted the building as a transfer warehouse and the 1950 to 1989 Sanborn Maps indicated the building as trailer factory with lacquer spraying. The historical use of the adjacent property as an historical manufacturing facility and the existing and historical use of the property as truck repair facility and its proximity to the site is considered a REC.
- Railroad tracks have been located south of the main site and north of the south parcels since at least 1911.
- § Terracon reviewed U.S. Fish and Wildlife Service (FWS) National Wetland Inventory (NWI) Maps for visual indicators to assess the likely presence or absence of regulated wetlands on the site. The NWI maps did not indicate the presence of regulated wetland features present on the site. Obvious indications of on-site wetland areas were not observed during the site reconnaissance.
- § It should be noted that the potential presence of “orphan” USTs onsite cannot be entirely eliminated on any property that was previously developed.

The site was observed to be vacant during the site reconnaissance. However, remnant building foundations were observed during the site reconnaissance which appear to correlate with historical development of the site.

Significant Data Gaps

Significant data gaps were not identified during the course of this ESA.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Terracon were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Sanborn® Library search results

Certification #: CAC4-49C7-9E1A

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- Library of Congress
- University Publications of America
- EDR Private Collection

The Sanborn Library LLC Since 1866™

Limited Permission To Make Copies

Terracon (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Terracon were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDR's Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

Search Results:**Coordinates:**

P.O.#	A2217022B	Latitude:	41.684527 41° 41' 4" North

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1923 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 1320 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

RESEARCH SUMMARY

Environmental Interest/Information System:

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

ACES (Illinois - Agency Compliance And Enforcement System) is the Illinois EPA Project to facilitate the permitting operations

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

ACES (Illinois - Agency Compliance And Enforcement System) is the Illinois EPA Project to facilitate the permitting operations RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous Waste Summary:

Waste Code: D001
 Waste Description: IGNITABLE WASTE

Waste Code: F002
 Waste Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F003
 Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL

Hazardous Waste Summary:

Waste Code: D001
Waste Description: IGNITABLE WASTE

Waste Code: F003
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F005
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Environmental Interest/Information System:

ACES (Illinois - Agency Compliance And Enforcement System) is the Illinois EPA Project to facilitate the permitting operations RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 Latitude: 41.6852596
 Longitude: -87.6253311
 HCM Label: Address Matching-House Number
 Map Scale: -
 Point of Reference: Entrance Point of a Facility or Station
 Highlights: Former Use: The property is currently vacant and is an abandoned service station property. An ~ 60' by 25' concrete pad remains on the site and no other improvements remain on the site. Until the 1920's, the site was occupied by two two-story structures, a dwelling structure and a stable/garage. From ~ 1927 -1950, the buildings were razed and replaced by a gas filling station. In 1953, the existing gas filling station was demolished and replaced with a new facility. The property operated as a gas filling station until the late 1980's. In 2000, the City of Chicago used its enforcement powers to remove non-compliant USTs and demolished the remaining buildings. The City of Chicago demolished the remaining structure. The City of Chicago foreclosed on demolition lien and acquired the property.

 HCM Label: Address Matching-House Number
 Map Scale: -
 Point of Reference: Entrance Point of a Facility or Station
 Highlights: Former Use: Property is a vacant corner lot and a suspect abandoned service station. The property was vacant until 1911. Records indicate a store was present on a portion of the site until ~ 1950 when a second building residential was added. The store was removed something in 1975 and the residential building and what appears to be a garage remained until 1998, when the City of Chicago demolished the remaining structure. The City of Chicago foreclosed on demolition lien and acquired the property.

- Property Description:

Property is a vacant corner lot and a suspect abandoned service station. The property was vacant until 1911. Records indicate a store was present on a portion of the site until ~ 1950 when a second building residential was added. The store was removed something in 1975 and the residential building and what appears to be a garge remained until 1998, when the City of Chicago demolished the remaining structure. The City of Chicago foreclosed on demolition lien and acquired the property.

Environmental Interest/Information System:

ACES (Illinois - Agency Compliance And Enforcement System) is the Illinois EPA Project to facilitate the permitting operations
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Waste Code: D037
Waste Description: PENTACHLOROPHENOL

Waste Code: D040
Waste Description: TRICHLORETHYLENE

Waste Code: F001
Waste Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLORETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F002
Waste Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F003
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F004
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: CRESOLS, CRESYLIC ACID, AND NITROBENZENE; AND THE STILL BOTTOMS FROM THE RECOVERY OF THESE SOLVENTS; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F005
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code:	U194
Waste Description:	1-PROPANAMINE (I,T) (OR) N-PROPYLAMINE (I,T)
Waste Code:	U196
Waste Description:	PYRIDINE
Waste Code:	U201
Waste Description:	1,3-BENZENEDIOL (OR) RESORCINOL
Waste Code:	U202
Waste Description:	1,2-BENZISOTHAZOL-3(2H)-ONE, 1,1-DIOXIDE, & SALTS (OR) SACCHARIN, & SALTS
Waste Code:	U207
Waste Description:	1,2,4,5-TETRACHLOROBENZENE (OR) BENZENE, 1,2,4,5-TETRACHLORO-
Waste Code:	U208
Waste Description:	1,1,1,2-TETRACHLOROETHANE (OR) ETHANE, 1,1,1,2-TETRACHLORO-
Waste Code:	U209
Waste Description:	1,1,2,2-TETRACHLOROETHANE (OR) ETHANE, 1,1,2,2-TETRACHLORO-
Waste Code:	U210
Waste Description:	ETHENE, TETRACHLORO- (OR) TETRACHLOROETHYLENE
Waste Code:	U211
Waste Description:	CARBON TETRACHLORIDE (OR) METHANE, TETRACHLORO-
Waste Code:	U212
Waste Description:	Not Defined
Waste Code:	U213
Waste Description:	FURAN, TETRAHYDRO-(I) (OR) TETRAHYDROFURAN (I)
Waste Code:	U218
Waste Description:	ETHANETHIOAMIDE (OR) THIOACETAMIDE
Waste Code:	U220
Waste Description:	BENZENE, METHYL- (OR) TOLUENE
Waste Code:	U221
Waste Description:	BENZENEDIAMINE, AR-METHYL- (OR) TOLUENEDIAMINE
Waste Code:	U223
Waste Description:	BENZENE, 1,3-DIISOCYANATOMETHYL- (R,T) (OR) TOLUENE DIISOCYANATE (R,T)
Waste Code:	U225
Waste Description:	BROMOFORM (OR) METHANE, TRIBROMO-
Waste Code:	U226
Waste Description:	ETHANE, 1,1,1-TRICHLORO- (OR) METHYL CHLOROFORM
Waste Code:	U227
Waste Description:	1,1,2-TRICHLOROETHANE (OR) ETHANE, 1,1,2-TRICHLORO-
Waste Code:	U228
Waste Description:	ETHENE, TRICHLORO- (OR) TRICHLOROETHYLENE

Environmental Interest/Information System:

ACES (Illinois - Agency Compliance And Enforcement System) is the Illinois EPA Project to facilitate the permitting operations
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

SUPERFUND (NON-NPL)

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Hazardous Waste Summary:

Waste Code:

F001

Waste Description:

THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLOROETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code:

F002

Waste Description:

THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code:

F003

Waste Description:

THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code:

F004

Waste Description:

THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: CRESOLS, CRESYLIC ACID, AND NITROBENZENE; AND THE STILL BOTTOMS FROM THE RECOVERY OF THESE SOLVENTS; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code:

F005

Waste Description:

THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

UTM Y (Meters): 4614724.5
Elevation: 605 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map: 10736426 LAKE CALUMET, IL
Version Date: 2018

West Map: 10736424 BLUE ISLAND, IL
Version Date: 2018

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

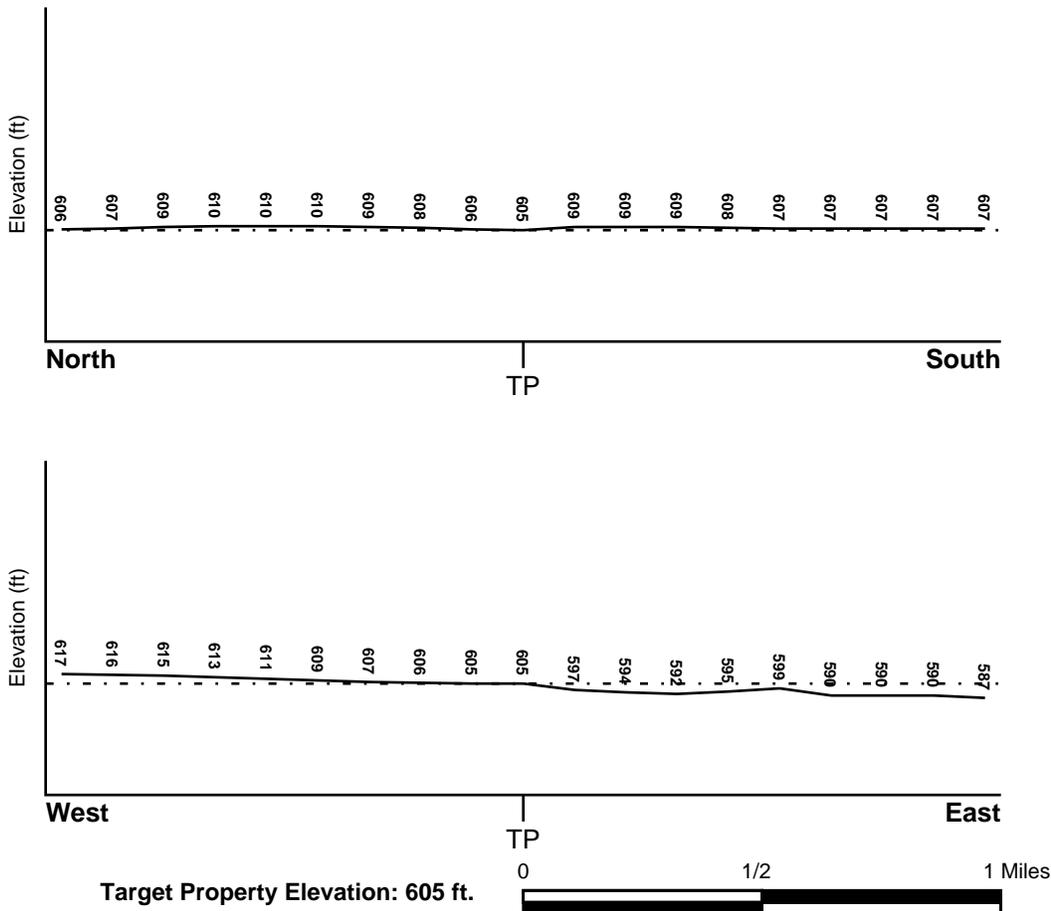

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General East

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic</u>
LAKE CALUMET	<u>Data Coverage</u>
	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era: Paleozoic
System: Silurian
Series: Middle Silurian (Niagoaran)
Code: S2 *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Stratified Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: URBANLAND

Soil Surface Texture: variable

Hydrologic Group: Not reported

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Bedrock Max: > 0 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Permeability Rate (in/hr)	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	60 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: fine sand
fine sandy loam
silty clay loam
loamy fine sand

Surficial Soil Types: fine sand
fine sandy loam
silty clay loam
loamy fine sand

Shallow Soil Types: No Other Soil Types

Deeper Soil Types: sand
fine sand
loamy sand
silty clay loam

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Source: Illinois State Geological Survey

Telephone: 217-333-4747

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

ASTM User Questionnaire		
In order to qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the user must respond to the following questions. Failure to provide this information to the environmental professional may result in significant data gaps, which may limit our ability to identify recognized environmental conditions resulting in a determination that "all appropriate inquiry" is not complete. This form represents a type of interview and as such, the user has an obligation to answer all questions in good faith, to the extent of their actual knowledge.		
1) Did a search of recorded land title records (or judicial records where appropriate) identify any environmental liens filed or recorded against the property under federal, tribal, state, or local law (40 CFR 312.25)? <input type="checkbox"/> No <input type="checkbox"/> Yes <input checked="" type="checkbox"/> Title search not completed (If yes, explain below and send Terracon a copy of the Chain of Title report.)		
2) Did a search of recorded land title records (or judicial records where appropriate) identify any activity and use limitations (AULs), such as engineering controls, land use restrictions, or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state, or local law (40 CFR 312.26)? <input type="checkbox"/> No <input type="checkbox"/> Yes <input checked="" type="checkbox"/> Title search not completed (If yes, explain below and send Terracon a copy of the Chain of Title report.)		
3) Do you have any specialized knowledge or experience related to the site or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the site or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business (40 CFR 312-28)? <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes (If yes, explain below)		
4) Do you have actual knowledge of a lower purchase price because contamination is known or believed to be present at the site (40 CFR 312.29)? <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes <input type="checkbox"/> Not applicable (If yes, explain below)		
5) Are you aware of commonly known or reasonably ascertainable information about the site that would help the environmental professional to identify conditions indicative of releases or threatened releases (40 CFR 312.30)? <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes (If yes, explain below)		
6) Based on your knowledge and experience related to the site, are there any obvious indicators that point to the presence or likely presence of contamination at the site (40 CFR 312.31)? <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes (If yes, explain below)		
<u>Comments or explanations:</u>

Re: Freedom of Information Act (FOIA) Request.

Ms. Linzy,

Terracon has been retained to conduct a Phase I Environmental Site Assessment on a property within your jurisdiction. As part of our scope of work, I am requesting significant information that you may have on record for the following properties in Chicago, Illinois:

11500-82 South Michigan Avenue (including 11500, 11502, 11504, 11506, 11508, 11508, 11510, 11512, 11514, 11516, 11518, 11520, 11522, 11524, 11526, 11528, 11540, and 115582 South Michigan Avenue); **11555 South Michigan Avenue**; **11533 South Michigan Avenue**

11517-31 South State Street (including 11517, 11519, **11521**, 11523, 11525, 11527, 11529 and 11531 South State Street);

19-117 East 115th Street (including 19, 21, 23, 25, 29, 31, 35, 41, 45, 47, 101, 105, 113, 117 East 115th Street); and

11550-11575 South Wabash Avenue (including 11560, 11562, 11572, 11557, 11573 South Wabash Avenue).

Please include information regarding **remediation, hazardous waste storage or generation, aboveground storage tanks (ASTs), and underground storage tanks (USTs)** including information on tank size, contents, location remediation efforts, soil/groundwater samples or similar reports. Our experience indicates that such information is typically maintained by the municipal fire department.

Kindly forward significant information to my attention at email listed below. I appreciate your effort and attention. Please call me at 630.717.4263 if you have any questions.

Sincerely,

Ms. Jessica Donahoe

OFFICE OF THE ILLINOIS STATE FIRE MARSHAL

JB Pritzker, Governor
Matt Perez, State Fire Marshal

December 16, 2021

Jessica Donahoe

Glendale Heights, IL 60139

Dear Jessica Donahoe:

The Office of the State Fire Marshal received your request for documents, pursuant to the Freedom of Information Act ("Act"), on 12/09/2021. Enclosed, and pursuant to the Act, please find those documents responsive to your request that are prepared or maintained by the Office of the State Fire Marshal.

Pursuant to Section 9.5 of the Act, "any person whose request to inspect or copy a public record is denied by a public body, may file a request for review with the Public Access Counselor established in the Office of the Attorney General not later than 60 days after the date of the final denial." Such requests must be in writing, signed by the requester and include (1) a copy of the request for access to records and (2) any response from the OSFM. Further information on such requests contact:

Sarah Pratt
Acting Public Access Counselor
Office of the Attorney General
500 S. 2nd Street
Springfield, Illinois 62706
Phone: 1-877-299-FOIA
(1-877-299-3642)
Fax: (217) 782-1396

For your added convenience, we now also offer electronic submission of FOIA requests. To use this feature please go to <http://www.sfm.illinois.gov/public/foia.aspx> and simply fill out our electronic FOIA request form.

Should you have further questions regarding this matter, please contact me at your earliest convenience.

Sincerely,

A handwritten signature in black ink, appearing to read "Matt Sebek". The signature is stylized with large, sweeping letters.

Matt Sebek
Deputy General Counsel – FOIA Officer
Office of the State Fire Marshal
217-785-1011

Notification for Underground Storage Tanks

FORM APPROVED
OMB NO. 2050-0049
APPROVAL EXPIRES 6-30-88

FOR
TANKS
IN
IL

DIVISION PETROLEUM/CHEMICAL SAFETY
ILLINOIS STATE FIRE MARSHAL
1035 STEVENSON DRIVE
SPRINGFIELD, IL

I.D. Number **STATE USE ONLY**
2010017

Date Received
MAY 5 1992

02703-4259

Notification is required by Federal law for all underground tanks that have been used to store regulated substances since January 1, 1974, that are in the ground as of May 8, 1986, or that are brought into use after May 8, 1986. The information requested is required by Section 9002 of the Resource Conservation and Recovery Act, (RCRA), as amended.

The primary purpose of this notification program is to locate and evaluate underground tanks that store or have stored petroleum or hazardous substances. It is expected that the information you provide will be based on reasonably available records, or, in the absence of such records, your knowledge, belief, or recollection.

4. pipeline facilities (including gathering lines) regulated under the Natural Gas Pipeline Safety Act of 1968, or the Hazardous Liquid Pipeline Safety Act of 1979, or which is an intrastate pipeline facility regulated under State laws;
5. surface impoundments, pits, ponds, or lagoons;
6. storm water or waste water collection systems;
7. flow-through process tanks;
8. liquid traps or associated gathering lines directly related to oil or gas production and gathering operations;
9. storage tanks situated in an underground area (such as a basement, cellar, mineworking, drift, shaft, or tunnel) if the storage tank is situated upon or above the surface of the floor.

RECEIVED
MAY 5 1992
DIV. OF PETROLEUM & CHEMICAL SAFETY

What Substances Are Covered? The notification requirements apply to underground storage tanks that contain regulated substances. This includes any substance defined as hazardous in section 101 (14) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), with the exception of those substances regulated as hazardous waste under Subtitle C of RCRA. It also includes petroleum, e.g., crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure (60 degrees Fahrenheit and 14.7 pounds per square inch absolute).

Where To Notify? Completed notification forms should be sent to the address given at the top of this page.

When To Notify? 1. Owners of underground storage tanks in use or that have been taken out of operation after January 1, 1974, but still in the ground, must notify by May 8, 1986. 2. Owners who bring underground storage tanks into use after May 8, 1986, must notify within 30 days of bringing the tanks into use.

Penalties: Any owner who knowingly fails to notify or submits false information shall be subject to a civil penalty not to exceed \$10,000 for each tank for which notification is not given or for which false information is submitted.

What Tanks Are Included? Underground storage tank is defined as any one or combination of tanks that (1) is used to contain an accumulation of "regulated substances," and (2) whose volume (including connected underground piping) is 10% or more beneath the ground. Some examples are underground tanks storing: 1. gasoline, used oil, or diesel fuel, and 2. industrial solvents, pesticides, herbicides or fumigants.

What Tanks Are Excluded? Tanks removed from the ground are not subject to notification. Other tanks excluded from notification are:
1. farm or residential tanks of 1,100 gallons or less capacity used for storing motor fuel for noncommercial purposes;

3. septic tanks;

INSTRUCTIONS

Please type or print in ink all items except "signature" in Section V. This form must be completed for each location containing underground storage tanks. If more than 5 tanks are owned at this location, photocopy the reverse side, and staple continuation sheets to this form.

Indicate number of continuation sheets attached

Re: Freedom of Information Act (FOIA) Request.

To Whom it May Concern,

Terracon has been retained to conduct a Phase I Environmental Site Assessment on a property within your jurisdiction. As part of our scope of work, I am requesting significant information that you may have on record for the following properties in Chicago, Illinois:

11500-82 South Michigan Avenue (including 11500, 11502, 11504, 11506, 11508, 11508, 11510, 11512, 11514, 11516, 11518, 11520, 11522, 11524, 11526, 11528, 11540, and 115582 South Michigan Avenue); **11555 South Michigan Avenue**; **11533 South Michigan Avenue**

11517-31 South State Street (including 11517, 11519, **11521**, 11523, 11525, 11527, 11529 and 11531 South State Street);

19-117 East 115th Street (including 19, 21, 23, 25, 29, 31, 35, 41, 45, 47, 101, 105, 113, 117 East 115th Street); and

11550-11575 South Wabash Avenue (including 11560, 11562, 11572, 11557, 11573 South Wabash Avenue).

Please include information regarding **building and/or demolition permits (signage and general inspection permits need not be included), no plumbing or electrical permits unless associated with aboveground storage tanks (ASTs) or underground storage tanks (USTs), occupancy permits, installation or removal of ASTs and USTs**. Our experience indicates that such information is typically maintained by the municipal building department.

Kindly forward significant information to my attention to my email listed below. I appreciate your effort and attention. Please call me at 630.717.4263 if you have any questions.

Sincerely,

Ms. Jessica Donahoe
Staff Scientist
Jessica.Donahoe@terracon.com

Inspection Date	Site Name	Inspection Type	Comments
2007-03-07	Betty Brite Cleaners	A3D	
2005-04-20	Betty Brite Cleaners	A3D	
2004-08-12	Betty Brite Cleaners	A3D	Inspector observed one drum of perc waste on site. While looking at the disposal and waste generator records the last shipment on file was 12/05/03 for one drum 30 pounds. The manager told Inspector that there had been another pick up but the paper work was at the owners home. Mr. Muhammed signed the inspection form with a return of Sept. 14, 2004 for a records to be available. Inspector checked the sewer behind the shop, but could not detect any perc.
2004-08-03	Betty Brite Cleaners	A8	I responded to a complaint concerning Betty Brite Cleaners pouring chemicals down the sewers. I arrived at the complaint location and went inside and spoke with Mr. Lee Prophet an employee at the dry cleaning store. I informed him of the complaint he escorted me to the rear of the store to the yard where the sewer is located. The sewer was dry and filled with dirt. The dry cleaning store is located in a shopping mall. We went back inside and he let me view receipts for the disposal of perc. Chicago Disposal Co. located in Gary Indiana. The last pick-up for perc was 12/3/03 one 55 gallon drum. The dry cleaners use very little perc. I did not see any evidence of illegal dumping of perchloroethylene down the sewer system therefore, I referred this complaint to the Air Division for a full inspection of Section 112 of the Act pertaining to dry cleaning.
2004-02-26	Betty Brite Cleaners	A3D	Follow up to 30 day defect notice, found the following: all records were available for inspection.
2003-12-16	Betty Brite Cleaners	A3D	
2002-10-23	Betty Brite Cleaners	A3D	This site had the receipts for Perc, Volume of 150 gal of Perc for 2001, and had Chemical Disposal as waste disposal agent. This site had all that was required.

Mrs. Jessica Donahoe
Terracon Consultants, Inc.
192 Exchange Blvd
Glendale Heights, IL 60139

Requester Type: Consultant

Dear Jessica Donahoe,

We have received your request for information under the Illinois Freedom of Information Act. Listed below is a summary of what we received in your online request.

Please do not reply to this email. If you have questions about your request please call (217) 558-5101.

Request Summary

Received 12/9/2021 10:33:26 AM

Reference Id(s) ILD981954753, 110038678507, 110018244559, BOL 0316495006, FINDS 110037149751, UST 912512, 316535008, UST 2010017, UST – 2040500, BOL 0316495110, 170000052519, BOL 0316495103, FINDS 110037885189, FINDS: 110037885198

Date Range 01/01/1900 - 12/09/2021

Request Narrative Terracon has been retained to conduct a Phase I Environmental Site Assessment on a property within your jurisdiction. As part of our scope of work, I am requesting environmentally significant information that you may have on record for the property located in Chicago, Illinois: 11500-82 South Michigan Avenue (FINDS 110037149751) (including 11500, 115501, 11502, 11503, 11504, 11506, 11508, 11508, 11510, 11512, 11514, 11516, 11518, 11520, 11522, 11524, 11526, 11528, 11540, & 115582 South Michigan Avenue); Cleaners - 115118 South State Street (ILD981954753, 110038678507, 110018244559, BOL 0316495006), filling station – 11521 South State Street, USTs – 11500 South Michigan Avenue, Cleaners - 11533 South Michigan Avenue; service station - 11555 South Michigan Avenue (LUST 912512, 316535008, UST 2010017); 11517-31 South State Street (including 11517, 11519, 11521, 11523, 11525, 11527, 11529 and 11531 South State Street); 19-117 East 115th Street (including 19, 21, 23, 31, 35, 41, 45, 47, 101, 105, 113, 117 East 115th Street); 32 East 115th Street (UST – 2040500, BOL 0316495110, 170000052519); 2 West 115th Street (UST, LUST, BOL 0316495103); 25 East 115th (FINDS 110037885189), 29 East 115th (FINDS: 110037885198); and 11550-11575 South Wabash Avenue (including 11560, 11562, 11572, 11557, 11573 South Wabash Avenue). Please include information regarding remediation, hazardous waste storage or generation, aboveground storage tanks (ASTs), and underground storage tanks (USTs) including information on tank size, contents, location remediation efforts, soil/groundwater samples or similar reports.

APPENDIX H

Consultant Qualifications

Rachelle K. Christian, P.G.

ENVIRONMENTAL DEPARTMENT MANAGER, ENVIRONMENTAL PROFESSIONAL

PROFESSIONAL EXPERIENCE

Mrs. Christian is an environmental geologist in Terracon's Lubbock, Texas office. She has 25 years of experience in environmental consulting, and she has experience in performing all aspects of Phase I site assessments. These studies involved consideration of present and former site usage by performing a site and area reconnaissance; interviewing past and present owners; reviewing environmental information provided by federal, state and local regulatory agencies; researching archived historical data including city directories and historical fire insurance maps; interpreting aerial photographs; and evaluating the site's geologic and hydrogeologic characteristics. Mrs. Christian also has experience in performing various aspects of Phase II site assessments and investigations, asbestos services, lead-based paint services, mold services and radon sampling services, and has experience with ESA Department management.

Mrs. Christian is responsible for the management and overview of over 450 environmental site assessments per year throughout the U.S., and has participated in more than 2,900 Phase I projects. She has experience with projects ranging from agricultural, residential and commercial properties, to industrial manufacturing, EPA Brownfield sites, PST facilities, LPST facilities, RCRA hazardous waste generators, oil and gas field properties, to wind and solar properties.

Mrs. Christian has experience in client interaction and marketing with numerous clients including private land owners, developers, local municipalities, major retail chains and large scale lending institutions. She is proficient in the coordination of site activities with local, state and federal regulatory agencies.

PROJECT EXPERIENCE TRANSPORTATION

High-Five TXDOT Development – Dallas, Texas

Project Manager for the High-Five TXDOT ESA at the intersection of I.H. 635 and U.S. 75 in Dallas, Texas.

Professional Services Completed: 2000

Construction Completed: May 2005

DFW Connector Development – Grapevine, Texas

Project Manager and overview for the DFW Connector 56 ESAs at the interchange of S.H. 114 and S.H. 121 in Grapevine, Texas.

Professional Services Completed: 2010

Construction Completed: March 2014

COMMERCIAL/RETAIL/FINANCIAL/TELECOMMUNICATIONS

ESA Portfolios

Project Manager for numerous ESAs conducted in conjunction with the acquisition of numerous convenience store/gasoline service stations, light industrial office/warehouses, industrial manufacturing facilities, newspaper/printing facilities, apartment complexes, medical office buildings, agricultural facilities, vacant land, and telecommunication tower sites, etc. in Texas and the U.S.

Professional Services Completed: 1996-2020

Ranch and Large-Scale Properties - Texas

Project Manager and overview of ESAs on multiple ranch and large-scale properties ranging in size from 1,000 acres to 170,000 acres.

Professional Services Completed: 2009-2018

EDUCATION

Bachelor of Science, Geology, 1995,
University of Texas at Arlington

REGISTRATIONS

Professional Geoscientist: Texas, No. 222

CERTIFICATIONS

EPA Accredited Asbestos Inspector since 1997

TDSHS Licensed Asbestos Inspector (License No. 60-1732)

TDSHS Lead Inspector and Risk Assessor Training Program (Certificate No. 00007)

TDSHS Licensed Lead Risk Assessor (License No. 2070466)

TDSHS Licensed Mold Assessment Technician (License No. MAT1059)

40-Hour OSHA Hazardous Waste Operations Training

University of Houston/TCEQ Texas Risk Reduction Program (TRRP) Modules 1 and 2

PEC Safeland USA Training Course

8-Hour NORM Surveyor Training

AFFILIATIONS

North Texas Association of Environmental Professionals, 2005-2017

Society of Texas Environmental Professionals, 2007-2017

WORK HISTORY

Terracon Consultants, Environmental Department Manager 2019-present; Due Diligence Manager 2017-2019 (Lubbock); Phase I ESA Group Manager, 2016-2017, Senior Project Manager of ESA Services, 2006-2015; Project Geologist, 1999-2006 (Dallas, TX)

HBC Engineering, Inc. – Dallas, TX, Project Geologist, 1995-1999

Rachelle K. Christian, P.G. (continued)

PUBLIC ENTITIES

Brownfields Redevelopment

Project Manager for numerous downtown Dallas and Fort Worth ESAs, including sites for the American Airlines Center (AAC), as well as in Greenville and Arlington, Texas, for West Central Texas Council of Governments (WCTCOG), and for West Texas/Panhandle and Eastern New Mexico cities.

Professional Services Completed: 1999-2020

Utilities

Project Manager for proposed utility corridors for both water and sewer line ESAs.

Professional Services Completed: 2012-2015

ENERGY

Oil & Gas Due Diligence – Texas and New Mexico

Assisted in multiple Phase I ESAs on over 1,500 oil and gas well production locations, injection and disposal wells, tank batteries, compressor stations, gas plants, field offices, pipe yards in Southwest Texas, West Texas and New Mexico. Duties included field reconnaissance, regulatory records and historical review, and reporting.

Professional Services Completed: 2009-2020

Wind and Solar Power

Project Manager and overview for ESAs on proposed wind and solar power properties in Texas. Duties included field reconnaissance of acreage, associated oil/gas fields, historical review and reporting.

Professional Services Completed: 2009-2020

Power Plants

Manager Overview for several ESAs on mothballed power plants in West Texas and Project Manager for several active power plants in Texas, New York and Massachusetts.

Professional Services Completed: 2007, 2012, 2013 and 2015

JESSICA DONAHOE

STAFF SCIENTIST

PROFESSIONAL EXPERIENCE

Ms. Donahoe is a Staff Scientist in Terracon's Glendale Heights, Illinois Office. Project duties include project management, site reconnaissance, data collection, preparing technical reports, client interaction, technical report writing and proposal preparation for Phase I Environmental Site Assessments (ESAs) and National Environmental Protection Act (NEPA) evaluations. Mrs. Donahoe has over five years of environmental consulting experience. Her areas of expertise include Phase I ESAs, Natural Resources (NR) reviews, NEPA evaluations, Environmental Housing and Urban Development (HUD) assessments, Phase II sampling and oversight, environmental monitoring, soil sampling, soil classification, technical writing, data analysis and report preparation. She has conducted a variety of Phase I ESAs, Transaction Screens, and Phase II Limited Scope Investigations (LSIs) for commercial, industrial, agricultural, and residential properties in Illinois, Ohio, Indiana, Kentucky, Michigan, Wisconsin, and North Carolina.

KEY EXPERIENCE

ASTM E 1527 Phase I Environmental Site Assessments

Conducted or assisted with over 400 Phase I ESAs in Illinois, Indiana, Ohio, Kentucky, Michigan, Wisconsin, and North Carolina. Assessments included current and historical use of the subject property and surrounding sites, environmental history of the property, a property reconnaissance, interviews with property owners, a review of regulatory agency files and databases, obtaining information from various governmental agencies, report preparation, as well as, recommendations for further assessment where warranted.

Environmental Monitoring – Illinois, Indiana and Ohio

Responsible for the coordination, completion, and oversight of sampling for a variety of environmental media including: groundwater, surface water and soil and multiple facilities. Analyze and interpret the laboratory data and assist in report development.

Ohio Voluntary Action Program (VAP) Environmental Assessments and Initial Exposure Investigation of Bulk Plants

Environmental investigation for bulk petroleum marketing facilities for a major oil company with a long history of usage which incorporated the Ohio VAP and ASTM standards. The Phase I investigations completed to determine the eligibility of subject properties for the Ohio VAP and identification of "identified areas" as defined by Ohio Administration Code (OAC) Rule 374-300-06(F).

UST/LUST Closure

Assisted with Leaking Underground Storage Tank (LUST) Closure for Illinois EPA and assisted with UST Closure for Kentucky Department of Environmental Protection (KDEP). Preparation and submittal of documentation of UST removal, excavation of contaminated soils and confirmatory soil and groundwater sampling. Worked under a Professional Engineer to help prepare documentation for monitoring, remediation and closure of several LUST sites based on the Tiered Approach to Corrective Action Objectives (TACO) for Illinois EPA sites.

PROJECT EXPERIENCE

City of Chicago, Department of Fleet & Facility Management (2FM)– Chicago, IL

Conducted Phase I ESAs for former sanitation truck yard and former laboratory equipment manufacturer properties as part of the fulfillment of a Task Order Requests (TOR) for the Chicago 2FM.

Professional Services Completed: 2018-2019

O’Hare International Airport Radar Equipment – Chicago, IL

Conducted Phase I ESAs of radar systems operated by the Federal Aviation Administration (FAA) located within the runway system of O’Hare International Airport prior to demolition of systems for future airport renovations and expansion project. **Professional Services Completed:** 2019

Proposed Logistics Facility Properties – Multiple sites - IL, IN, MI

Conducted Phase I ESAs of various industrial, residential, commercial, and agricultural properties ranging in size from 10 to 80 acres to aid in due diligence prior to redevelopment into logistics facilities.

Professional Services Completed: 2018-2020

Food Distribution/Meat Processing Facilities – Bolingbrook, IL

Conducted Phase I ESAs on Food Distribution/Packaging Warehouse Facilities (including a wastewater pre-treatment plant). **Professional Services Completed:** 2019-2020

Proposed Senior Living Facility – Naperville, IL; Long Grove, IL; West Chicago, IL

Conducted Phase I ESAs for potential construction of senior living facilities with additional scope of presence/absence of wetlands, floodplains, Threatened and Endangered (T&E) species, and critical habitat review. **Professional Services Completed:** 2018-2020

Proposed Telecommunications Towers – Multiple sites – IL, MO, GA, FL, AR, TN

Assisted in NEPA assessments as directed by the Federal Communications Commission (FCC) for proposed Telecommunications Towers/Utility Easements across United States. NEPA scopes included presence/absence of wetlands, floodplains, federal/tribal land, T&E species, critical habitat, historic resources, and archaeological resources impacted by the proposed tower. **Professional Services Completed:** 2018-2019

Proposed Senior Housing Phase I ESA/HUD Assessment – Peru, Illinois

Conducted a Phase I ESA and Housing and Urban Development (HUD) Assessment on a 7-acre parcel of undeveloped land per the Illinois Housing Development Authority’s (IHDA) 2017 Environmental checklist, prime farmland assessment, and HUD requirements. **Professional Services Completed:** 2020

Railworks – Minooka, IL

Managed and conducted Phase I ESA for railroad service yard and maintenance facility as part of a national portfolio. Site conditions included industrial maintenance operations and hazardous chemical storage unique to the rail industry. Assisted with Land Evaluation and Site Assessment (LESA).

Professional Services Completed: 2019-2020

Senior Care Portfolio – Multiple locations - Illinois

Conducted Phase I ESAs for several long-term care medical facilities to aid in environmental due diligence prior to transition of ownership of care facilities. **Professional Services Completed:** 2019-2020

Warehouse/Logistics Facilities – Multiple locations – Illinois and Indiana

Conducted several Phase I ESAs of various existing warehouse/logistic distribution facilities ranging in size from 5,000 to 1,000,000+ square feet. **Professional Services Completed:** 2018-2020

Plastics Recycling Facility – North Aurora, IL

Conducted a Phase I ESA of a plastics recycling facility located on a former petroleum bulk plant location.

Professional Services Completed: 2018-2019

City of Chicago Housing Authority (CHA) Portfolio – Chicago, IL

Conducted Phase I ESAs for office building, and several vacant lots in Chicago with on-site and adjoining historical filling stations, dry cleaners, and auto repair facilities. **Professional Services Completed:** 2019

Oil Change Facility National Portfolios – Multiple Locations – IL, IN, OH, KY, NC

Conducted Phase I Assessments, Phase I Updates, and Phase II Investigation reports for oil change facilities, automotive repair facilities, filling stations, and truck stop/travel plazas in Illinois, Indiana, Ohio, North Carolina, and Kentucky. **Professional Services Completed:** 1998-2001

Chicago Ashland Avenue Project – Chicago, IL

Baseline Phase I ESA of former furniture manufacturing facility that was destroyed by a large scale fire to aid in due diligence prior to redevelopment into logistics facilities. Historical operations spanning over 120 years in Chicago with a wide range of contaminants of concern associated with various industry practices and operations. Findings of the ESAs prompted Limited Site Investigations (LSIs) and enrollment into the Illinois Environmental Protection Agency's (IEPA) Site Remediation Program (SRP).

Professional Services Completed: 2018-2019

Metal Manufacturing Facilities – Franklin Park, IL

Conducted Phase I ESAs of metal manufacturing and finishing facilities that lead to LSIs to aid in due diligence prior to redevelopment. **Professional Services Completed:** 1998-1999, 2018-2020

Nationwide Newspaper Printing Portfolio – Multiple Locations – IL, IN, MI

Assisted with multiple Phase I ESAs for former newspaper printing facilities and distribution centers. These reports included historical operations spanning over 120 years in some locations with a wide range of contaminants of concern associated with various industry practices and operations.

Professional Services Completed: 2018

Drum Manufacturing Facility – Chicago, IL

Conducted Phase I ESAs for a drum manufacturing facility in the Pilsen area of Chicago with a history of on-site and adjoining historical Chicago Transit Authority (CTA) station, transformer substation, and former foundry with in the Heart of Chicago Soils clean-up area. **Professional Services Completed:** 2019-2020

Medical Campus Expansion – LaPorte, IN

Conducted Phase I ESAs for various vacant (formerly improved) lots in historic downtown area to aid in due diligence prior to construction of future medical facilities. **Professional Services Completed:** 2018-2019

Medical Campus – Red Bud, IL

Assisted with Phase I ESAs report for medical campus to aid in environmental due diligence.

Professional Services Completed: 2018-2019

Filling Station – Warrenville, IL

Conducted Phase I ESA and file review for filling station to aid in environmental due diligence prior to redevelopment for community and park district use. **Professional Services Completed:** 2019

Office Buildings – Multiple locations in Illinois, Ohio, Indiana

Conducted Phase I ESA reports for multiple office buildings to aid in environmental due diligence prior to pending sale. **Professional Services Completed:** 1997-2001; 2018-2020

Former NIKE Missile Base Office/Park Development– Naperville, IL

Conducted Phase I ESA reports for office buildings on land formerly used as a NIKE Missile Base to aid in environmental due diligence prior to pending sales. **Professional Services Completed:** 1997; 2019

EXECUTIVE SUMMARY

LFR Levine Fricke (LFR) conducted a Phase I Environmental Site Assessment (ESA) for the property identified as Roseland Plaza located at the intersection of 115th Street and Michigan Avenue, Chicago, Cook County, Illinois (the "Site"). The Phase I ESA was requested by the City of Chicago, Department of Environment (CDOE).

Based on the information available at the time of this assessment, the following is a summary of key findings:

- The Site is comprised of an irregular tract of land approximately 5 to 6 acres, consisting of 14 separate parcels. The Site currently consists of three separate structures built in the 1950's used for commercial businesses, undeveloped land, and asphalt driveway and parking areas.
- The Site was initially developed prior to 1897 and has always been used for residential/commercial purposes including, but not limited to the following businesses:
 - Reading Coal Company as a coal storage yard (from prior to 1897 to the 1940s),
 - Chicago and Riverdale Lumber Company as a lumber storage yard (from prior to 1897 to the early 1980s),
 - Gasoline service station and auto body repair and paint shop (from after 1911 to the late 1950s),
 - DVM Wood Products as a sash and door facility (from after 1939 to the late 1950s), and
 - Betty Brite Cleaners as a drycleaning facility (from the late 1950s to present).
- Betty Brite Cleaners located at 11518 S. Michigan Avenue, is listed as a RCRA small quantity generator of hazardous waste. No violations were reported for this facility. However, general housekeeping practices at the facility were observed to be of fair to poor. Dark staining was visible on the concrete floor, which was in fair to poor condition with visible cracks, in the general vicinity of the drycleaning machines and hazardous waste storage drum. In addition, an open floor drain, which reportedly discharges to the sanitary sewer, was visible on the concrete floor adjacent to the drum and drycleaning machines.
- Suspect underground storage tank (UST) vent and fill pipes were observed at the Site in various facilities. According to the City of Chicago Building Department records, 10 USTs were installed at the Site in the late 1950s. A historic gasoline service station located at the Site is shown on the Sanborn Maps to have three USTs, of which one 1,000-gallon gasoline UST was replaced in 1955. In addition, a former commercial building located adjacent to the Site to the north of the alley was shown to contain UST(s). City of Chicago Building Department and CDOE records do not indicate that the USTs were removed from facilities at

or adjacent to the Site. However, an unknown number of tanks were reportedly removed from the basement of the House of Peace Christian Bookstore (former Oak Park National Bank), located at 11500 S. Michigan Avenue, in the 1960s or 1970s.

- LFR observed the presence of miscellaneous dumping, including numerous empty 5-gallon buckets, used tires, furniture, construction debris, and telephone poles, along the southern portion of the Site. A large, slightly depressed area that contained numerous pieces of coal, slag, and cinders was also observed in this area, which historically contained coal storage sheds and a railroad spur.
- Significant water and mold damage was observed in the basement of the House of Peace Christian Bookstore located at 11500 S. Michigan Avenue.

LFR has identified the following Recognized Environmental Conditions (RECs) based on the data obtained during the Phase I investigation:

- A drycleaning facility that has operated at the Site for approximately 25 years.
- The presence of an unknown number of potential UST(s) at the Site and an adjacent facility.
- The presence of illegal dumping areas, which include an area of coal, slag, and cinders.
- The potential presence of asbestos containing materials within the buildings Site.

CERTIFICATION

The environmental assessment described herein was conducted by the undersigned, of LFR Levine-Fricke (LFR). LFR's investigation consisted solely of the activities described in the Introduction of this report, in accordance with the LFR Proposal dated June 25, 2004 and is subject to the Limitations and Service Constraints provided in Section 1.

Report Prepared By:

David M. Kulczycki
Staff Geologist

Report Reviewed and Approved By:

John A. Frankenthal
Senior Scientist

1.0 INTRODUCTION

This report presents the findings of a Phase I Environmental Site Assessment (ESA) for the property identified as Roseland Plaza located at the intersection of 115th Street and Michigan Avenue, Chicago, Cook County, Illinois (“the Site”, **Figure 1**). LFR Levine-Fricke (LFR) conducted this Phase I ESA for the City of Chicago Department of Environmental (CDOE) in accordance with our approved proposal dated June 24, 2004. The ESA was also conducted in general accordance with the guidelines established by ASTM standard E1527-00.

LFR’s findings are based on an assessment of existing conditions at the Site and surrounding areas, local background research, evaluation of the Site’s environmental setting, and review of records on file with local, state, and federal regulatory agencies. Sampling and testing of building materials, soil, groundwater, and potable water were not performed as part of this ESA. LFR has not performed a subsurface investigation at the Site and therefore makes no representations of soil or groundwater quality conditions.

1.1 Limitations and Service Constraints

This report is exclusively for the use of the CDOE, and their lender(s). Any reliance of this report by any other party shall be at such party's sole risk.

This ESA was conducted using the highest standard of diligence, care, and skill that experienced professionals in the field relevant to the ESA would use in performing the ESA under similar circumstances, as of the period of time at which the ESA was performed. The findings set forth in the attached site assessment report are strictly limited in time and scope to the date of the evaluation(s). The information in this report is specific to the scope of work and any reuse of this information is at the user’s sole risk. The conclusions presented in the report are based solely on the services described therein, and not on scientific tasks or procedures beyond the scope of agreed-upon services or the time and budgeting restraints imposed by the client. LFR makes no representation concerning the legal significance of its findings or of the value of the property investigated.

Much of the information provided in this report is based upon personal interviews and research of available documents, records, and maps held by the appropriate government and private agencies. This is subject to the limitations of historical documentation, availability, and accuracy of pertinent records, and the personal recollection of those persons contacted. The initial site assessment took into account the natural and manmade features of the Site, including any unusual or suspect phenomena. The presence of radioactive materials, biological hazards, or asbestos was not investigated unless specifically noted otherwise.

2.0 EXISTING SITE CONDITIONS

2.1 Site Description

The Site is comprised of an irregular tract of land approximately 5 to 6 acres, which is made up of 14 separate parcels. The Site currently consists of three separate building structures used for commercial businesses, undeveloped land, and asphalt paved drives and parking areas. The following table lists the parcel index numbers (PIN#), address or addresses as identified during the Site visit and/or according to the Cook County Assessor's Office, and the current corresponding property use for the Site parcels:

PIN#	Address (es)	Current Property Use
25-22-300-063	11500, 11514, and 11516 S. Michigan Ave.	Commercial Business – House of Peace Bookstore (vacant), Plaza Hardware (occupied); asphalt parking lot and driveway
25-22-300-053	11538 and 11542 S. Michigan Ave.	Commercial Business - Family Dollar (occupied); asphalt parking lot and driveway
25-22-300-005	11517, 11525, and 11527 S. State St.	Commercial Business – Prime Foods (vacant); asphalt parking lot and driveway
25-22-300-006		
25-22-300-007		
25-22-300-038	11516, 11518, and 11528 S. Michigan Ave.	Commercial Business – Coffee Pot Restaurant (occupied), Coin Laundry (vacant), Betty Brite Cleaners (occupied), Insure One (occupied); asphalt parking lot and driveway
25-22-300-039		
25-22-300-040		
25-22-300-041	11526 S. Michigan Ave.	asphalt parking lot and driveway

PIN#	Address (es)	Current Property Use
25-22-300-042	11530 S. Michigan Ave.	asphalt parking lot and driveway
25-22-300-043	11532, 11534, 11538, 11540, 11544 S. Michigan Ave.	Commercial Business - Family Dollar (occupied), Ted's Beauty Supply (occupied), Top Nails (occupied), Jane's Video Store (vacant)
25-22-300-019	11562 S. Wabash	asphalt parking lot and driveway, undeveloped land
25-22-300-068	11552 S. Michigan	Commercial Business – Church's Chicken (occupied); asphalt parking lot and driveway, undeveloped land
25-22-300-058	11578 S. Michigan	Undeveloped land

According to the City of Chicago Zoning Department, the Site is in an area currently zoned as Community Shopping District (B3-1), and historically zoned as General Service Districts (B5-1).

2.1.1 Site Location and Conditions

The Site is located at the southwest intersection of 115th Street and Michigan Avenue, extends south along western side of Michigan Avenue to the northwest-southeast trending Chicago and Western Indiana Railroad (C&WI RR) and extends west to State Street. In general, the area is a mixed commercial/residential neighborhood. The Site is bounded to the north by 115th Street on the eastern portion of the Site, and by an alley and commercial/residential properties on the central and western portion of the Site. West of the Site is State Street, beyond which is a vacant lot. The Site is bounded to the south by the C&WI RR, beyond which are residential properties. East of the Site is Michigan Avenue, beyond which are commercial properties.

The Site is currently used by various businesses for commercial purposes. There are three buildings currently on Site. The remainder of the Site is asphalt-paved asphalt used for customer and employee access and vehicle parking. Other structures at the Site include storage trailers used by Family Dollar for storage of excess inventory.

Historically the Site contained numerous other residential and commercial buildings, which subsequently have been demolished and/or converted to the current building structures.

A Site Map, Site Plan of the property and surroundings properties are shown as **Figures 1 and 2**, respectively. Photographs of the Site and vicinity taken on September 23, 2004, are included in **Appendix A**.

2.1.2 Site Ownership

The Site is currently owned by the City of Chicago, who recently purchased the property from Roseland Plaza Limited Partnership, the current landlord of the Site. The current buildings have been either leased and/or owned by various businesses since the late 1950s the approximate date of development of the buildings currently on Site. LFR did not conduct a formal title search of properties at the Site.

2.2 Site Utilities

The Site receives water through the Metropolitan Water Reclamation District of Greater Chicago (MWRDGC), which obtains water from Lake Michigan. The Site receives sanitary sewer services through the City of Chicago. The Site receives electricity through Commonwealth Edison (ComEd), and natural gas from Nicor.

No evidence of current on-site septic systems or drinking water wells were identified at the Site during our visit on September 23, 2004

2.3 Historical and Current Usage

As shown on historical Sanborn Fire Insurance Maps, the Site was developed prior to 1897 and occupied by various residential and commercial properties; including, but not limited to the following:

- Reading Coal Company as a coal storage yard (prior to 1897 to the 1940s),
- Chicago and Riverdale Lumber Company as a lumber storage yard (prior to 1897 to the early 1980s),
- Gasoline service station and auto body repair and paint shop (after 1911 to the late 1950s), and
- DVM Wood Products as a sash and door facility (after 1939 to the late 1950s).

As shown on historical Sanborn Fire Insurance Maps and based on City of Chicago Building Department records, the current buildings at the Site were erected in the late 1950's and have been occupied by numerous commercial businesses since that time

2.4 Sanborn Maps

LFR requested and reviewed Sanborn Fire Insurance Maps from Environmental Data Resources (EDR). Copies of the Sanborn Fire Insurance Maps are presented in **Appendix B**. Below is a brief summary:

- **1897:** The Site was developed into multiple residential and commercial buildings. The western side of the Site, along State Street, were residential homes and a hay and grain feed building. The central portion of the Site was occupied by three coal and wood storage sheds and undeveloped land. Residential and commercial buildings, a church, and Illinois and Wisconsin Lumber Company occupy the eastern side of the Site, along Michigan Avenue. A freight house and train platform occupied the southeast corner of the Site, adjacent to the C&WI RR. The adjoining properties were limited to residential and commercial buildings.
- **1911:** The Site was developed into multiple residential and commercial buildings. Along the western side of the Site, along State Street, were residential homes and a railroad spur that split into two spurs in the central portion of the Site. The central portion of the Site was occupied by coal storage sheds, residential buildings, and contained two railroad spurs. The eastern portion of the Site, along Michigan Avenue, contained residential and commercial buildings, a school, a church, and storage yard and shed occupied by the Chicago and Riverdale Lumber Company. The southern portion of the Site, adjacent to the C&WI RR, contained two railroad spurs and coal storage sheds. The adjoining properties were limited to residential and commercial buildings.
- **1939:** The Site was developed into multiple residential and commercial buildings. Along the western side of the Site, along State Street, were residential homes, a gasoline filling station with three USTs, and a single railroad spur that split into two spurs in the central portion of the Site. The central portion of the Site was occupied by three coal storage sheds and contained two railroad spurs. The eastern portion of the Site, along Michigan Avenue, contained residential and commercial buildings, a garage for truck service, and storage yard and shed occupied by the Chicago and Riverdale Lumber Company. The southern portion of the Site, adjacent to the C&WI RR, contained three railroad spurs. The adjoining properties were limited to residential and commercial buildings, which included a service garage with a single UST directly adjacent to the north of the central portion of the Site.
- **1950:** The Site was developed into multiple residential and commercial buildings. Along the western side of the Site, along State Street, were residential homes, a gasoline filling station with three USTs, a coffee roaster building, and a single railroad spur that split into two spurs in the central portion of the Site. The central

portion of the Site was occupied by a one vacant and dilapidated building (former coal shed) and contained two railroad spurs. The eastern portion of the Site, along Michigan Avenue, contained residential and commercial buildings, an auto body repair and painting facility (former garage for truck service), sash and door facility, and storage yard and shed occupied by the Chicago and Riverdale Lumber Company. The southern portion of the Site, adjacent to the C&WI RR, contained three railroad spurs. The adjoining properties were limited to residential and commercial buildings, which included a sheet metal facility and service garage with a single UST directly adjacent to the north of the central portion of the Site.

- **1975:** Two of the three current building structures are present at the Site. The remaining portions of the Site are undeveloped or shown as parking areas. The larger building to the north was occupied by numerous commercial businesses. The second building in the central and eastern portion of the Site was occupied by Illinois Bell Telephone Company. The southern building, not currently present, was similar to the 1950 map. A lumber storage yard was shown between the second and third buildings on the map. The southern portion of the Site, adjacent to the C&WI RR, contained three railroad spurs. The adjoining properties were limited to residential and commercial buildings. The sheet metal facility and service garage with the single UST were not present on the map.
- **1987:** All portions of the Site were similar to the 1975 map with the exception of the southern building, which was demolished and rebuilt as a smaller commercial building. The southern portion of the Site, adjacent to the C&WI RR, contained three railroad spurs. The adjoining properties were limited to residential and commercial buildings.
- **1989 & 1992:** The northern and southern buildings were similar to the 1987 map. The second building in the central and eastern portion of the Site, formerly occupied by Illinois Bell Telephone Company, is listed as a commercial building. The southern portion of the Site, adjacent to the C&WI RR, contained three railroad spurs. The adjoining properties were limited to residential and commercial buildings.

Figure 3 presents the historical recognized environmental conditions identified on each of the Sanborn Maps reviewed

2.5 Aerial Photographs

Aerial photographs for the years 1940, 1988, 1998, and 2002 of the general location of the Site were obtained from the Natural Resources Conservation Service of Southern Cook County, New Lenox, Illinois. Copies of the aerial photographs are included in **Appendix C**. A brief review follows:

- **1940:** The scale of this photo does not allow detailed interpretation of the Site and surrounding vicinity; however, the Site appears similar to conditions described above for the 1939 Sanborn Map. Building structures were located in the approximate

location of the gasoline filling station, coal storage sheds, and lumber shed. In addition, the rail spurs and railroad to the south of the Site were also shown.

- **1988:** The Site appears similar to conditions described above for the 1987 and 1989 Sanborn Maps, which in general is consistent with current Site conditions. The southern portion of the Site, adjacent to the C&WI RR, appears to contain three railroad spurs. The vacant lot currently to the west of the Site beyond State Street appears occupied by a single building structure.
- **1998:** The Site appears similar to the 1988 photograph.
- **2002:** The Site appears similar to the current conditions encountered at the Site.

3.0 SITE RECONNAISSANCE AND ENVIRONMENTAL INSPECTION

3.1 General Site Description and Evaluation

On September 23, 2004, David Kulczycki, Geologist for LFR, conducted a Site visit and reconnaissance of surrounding properties (**Figure 2**) to observe general Site conditions and indications of potential environmental concerns. Mr. Kulczycki was escorted by Mr. Chester Mack, City of Chicago property manager for the Site. The Site contact provided access to all areas of the Site with the exception of the following locations:

- Prime Foods basement (11525 S. State) – No electrical power or lighting at the facility to allow safe access to basement;
- Coin Laundry (11518 S. Michigan) – Site contact unable to contact current tenant for access; and
- Church's Chicken (11552 S. Michigan) – Site contact stated that property was not managed by the City of Chicago.

The Site is comprised of an irregular tract of land approximately 5 to 6 acres, consisting of 14 separate parcels. The Site is currently consists of three separate building structures used for commercial businesses, undeveloped land, and asphalt driveway and parking areas. The southern portion of the Site consists of gravel and overgrown vegetation.

The northern and largest building at the Site is and/or was occupied by the following tenants:

- Prime Foods (former one-story grocery store with basement and large warehouse),
- Insure One (one-story office space),
- Betty Brite Cleaners (one-story drycleaner with basement boiler room),
- Coin Laundry (closed laundromat),
- Coffee Pot Restaurant (one-story restaurant diner),
- Plaza Hardware (one-story hardware store), and
- House of Peace Christian Bookstore (one-story bookstore with basement).

The central building at the Site is and/or was occupied by the following tenants:

- Family Dollar (one-story grocery store),

- Ted's Beauty Supply (one-story store),
- Top Nails (one-story nail salon shop), and
- Jane's Video Store (former one-story video store).

The southern building at the Site is occupied by Church's Chicken (fast-food restaurant). LFR was not provided access to the building; however, it appeared to be a one-story structure. In addition, LFR did not observe any features on the exterior of the building that would impact the environmental integrity of the Site.

3.2 Electrical Transformers

Three pole-mounted electrical transformers were observed on a single telephone pole to the south of the central building structure, and three pole-mounted electrical transformers were observed on a single telephone pole to the west of the northern building structure adjacent to the alley. LFR did not observe the presence of any blue-tags on the transformers; therefore, there is a potential that they contain PCBs. However, the transformers appeared in good condition and no staining was observed on the asphalt surface beneath the transformers.

No other electrical transformers were observed at the Site.

3.3 Underground and Aboveground Storage Tanks

LFR did not observe any physical evidence of existing aboveground storage tanks (AST) at the Site.

LFR observed the following physical evidence of potentially existing or former on-Site USTs:

- One suspect UST fill pipe and vent pipe were visible on the exterior wall of the northwest corner of the former Prime Foods building.
- A suspect vent pipe was visible in the northern storage and employee portion in the interior of the former Prime Foods building. The suspect vent pipe appeared to formerly extend into a pipe or joint protruding from the floor.
- Five suspect UST fill pipes and one vent pipe were visible on the exterior wall adjacent to the alley, and to the north of Betty Brite Cleaners and west of Plaza Hardware. One of the vent pipes appeared to be filled with concrete.
- The basement of the House of Peace Bookstore contained five suspect fill pipes protruding from the western exterior wall. The pipes were capped and sealed. No staining was visible on the concrete floor beneath the pipes.

- A suspect former vent pipe was visible on the exterior wall of the Family Dollar building. LFR observed a concrete patch in the brick wall where the suspect vent pipe likely extended into the building. LFR did not observe any evidence of an AST or UST present within the inside of the building. No staining was visible on the interior concrete floor or exterior asphalt surface.

No other evidence of potentially existing or former on-Site USTs was observed at the Site. Further information regarding USTs potentially located at the Site is presented in Section 4.4.

3.4 Chemicals and Raw Materials

No chemicals or raw materials were observed during the Site visit on September 23, 2004.

3.5 Wastewater Streams

Several stormwater drains are located within the asphalt lot, as well as along the perimeter streets. These stormwater drains are connected to the City of Chicago sewer system.

No potential environmental impacts to or from stormwater runoff were observed.

3.6 Air Emissions

No current or former air emission sources were identified during the Site visit on September 23, 2004.

3.7 Polychlorinated Biphenyls (PCBs)

Three pole-mounted electrical transformers were observed on a single telephone pole to the south of the central building structure, and three pole-mounted electrical transformers were observed on a single telephone pole to the west of the northern building structure adjacent to the alley. LFR did not observe the presence of any blue-tags on the transformers; therefore, there is a potential that they contain PCBs. However, the transformers appeared in good condition and no staining was observed on the asphalt surface beneath the transformers.

No other electrical transformers were present at the Site. No physical evidence of PCBs was observed at the Site.

3.8 Asbestos

In accordance with the Scope of Work, LFR did not conduct an asbestos-containing material (ACM) survey at the Site. Based on age of the buildings on the Site (built in the 1950's), the potential for ACM is possible within each building on the Site. Suspect ACM pipe wrap was observed in all of the Site buildings.

3.9 Electromagnetic Fields

LFR did not observe high-tension power lines within the Site during this reconnaissance.

3.10 Groundwater Wells

LFR did not identify any groundwater monitoring, drinking water wells, or irrigation wells on the Site.

According to the EDR report, numerous wells are located in the surrounding properties. No potential environmental impacts from these wells were observed.

3.11 Hazardous and Solid Waste

One facility at the Site is listed as a RCRA small quantity generator of hazardous waste (SQG). LFR observed the presence of hazardous materials at the Betty Brite Cleaners facility, 11518 S. Michigan, including a hazardous waste storage drum for the storage and subsequent disposal of dry-cleaning waste. The drum was located on a yellow containment pad, which sat on concrete in the northern interior of the facility. At the time of LFR's visit, the drum was empty. According to the facility manager, the drum is used store the waste "sludge" or solids that are removed from the operating dry cleaning machine, and to store used filters from the dry cleaning machine. The drum is emptied approximately three to four times per year by Chemical Disposal Services, Inc. and disposed at Pollution Control Industries (East Chicago, Illinois) According to a disposal receipt and waste manifest reviewed by LFR, the drum was last emptied on August 27, 2004.

In addition, the facility has two dry cleaning machines, of which only one has been operating since in March 2004. The facility manager indicated that approximately 30 gallons of dry cleaning solvent (perchloroethene or "Perc") is delivered to the facility every three months. The delivery contractor transfers the "Perc" to the machine, via a hose. The facility manager also stated the "Perc" from the malfunctioned machine was fed into the operating machine with a hose by facility staff.

In general, the housekeeping practices of the facility were observed to be of fair to poor condition. Dark staining was visible on the concrete floor, which was in fair to poor condition, some cracks were visible in the general vicinity of the dry cleaning machines and storage drum. In addition, an open floor drain, which reportedly discharges to the

sanitary sewer, was visible on the concrete floor adjacent to the drum and containment pad and the northern exterior door.

Further information regarding hazardous materials from the dry cleaning facility located at the Site is presented in Section 4.4.

No other evidence of hazardous waste was observed at the Site. Solid waste at the Site is limited to the disposal of trash and garbage from the various facilities.

3.12 Landfills, Pits, and Sumps

LFR observed the presence of numerous empty 5-gallon buckets, used tires, furniture, construction debris, and telephone poles along the southern portion of the Site and adjacent to the C&WI RR. LFR also observed a large, slightly depressed area that contained numerous pieces of coal, slag, and cinders. This area appears to be located in the general vicinity of the former railroad spur and coal storage sheds. A sump pump was observed in the basement of the former House of Peace Christian Bookstore. During the time of LFR's Site visit the pump was not operating, which likely resulted in water damage that was observed to the basement floor and walls. A very strong mold odor was detected throughout the basement. Visible mold growth was observed along the base and on the walls in the basement.

LFR did not observe any pits or landfills in the vicinity of the Site.

3.13 Neighboring Properties

The Site is bounded to the north by 115th Street on the eastern side of the Site, and by an alley and commercial/residential properties on the central and western side of the Site, which include a former commercial building that formerly contained UST(s) as indicated by the Sanborn Maps. West of the Site is State Street, beyond which is a vacant lot. The C&WI RR bound the Site to the south, beyond which are residential properties. East of the Site is Michigan Avenue, beyond which are commercial properties.

4.0 ENVIRONMENTAL SETTING

LFR's review of the United States Geological Survey (USGS) Lake Calumet (Illinois-Indiana) Quadrangle (7.5-minute series – Topographic, dated 1997) shows that the ground surface in the Site area is generally flat at an approximate surface elevation of 605 feet above mean sea level (AMSL). The region around the Site has a gentle slope towards the east, towards Lake Calumet located approximately 1 mile to the east of the Site.

4.1 Geology

Surface Soils:

According to *The Soil Survey of DuPage and Part of Cook Counties, Illinois*, published by the United States Department of Agriculture Soil Conservation Service (1964), surface soils in the area of the Site consist of Urban land – Selma-Oakville series. These soils are built-up areas and deep, level to undulating, well to poorly drained soils that have a loamy, silty, or sandy subsoil; formed in glacial outwash and in glacial lake sediment.

Subsurface Soils:

According to the Illinois State Geological Survey (ISGS), *Summary of the Geology of the Chicago Area*, Circular 460 (1971), the Site is located in Lake Plain deposits. These deposits formed in the floors of glacial lakes flattened by wave erosion and by deposition in low areas. Underlying these deposits is the Wadsworth Formation (glacial till) composed of silty clay, with thin deposits of Equality Formation (lake sediment) composed of silt, clay, and sand.

4.2 Hydrogeology

The Site is located approximately one mile east of the Lake Calumet. Based on surface elevation of the Site (605 feet AMSL) and Lake Calumet (585 feet AMSL), groundwater in the Site vicinity is estimated to occur at depths of 20 feet below ground surface (bgs), and is inferred to flow to the east, toward Lake Calumet. Actual groundwater depth and flow direction at the Site cannot precisely be determined without conducting a subsurface investigation.

According to the EDR report, the Site is not located within a 100-year or a 500-year floodplain zone.

4.3 Surface-Water Resources and Drainage

The Site has several stormwater drains located within the asphalt lot, as well as along the perimeter streets. All of these drains are connected to the City of Chicago sanitary sewer system.

4.4 Environmental Records

LFR contacted the City of Chicago Building Department, Cook County Assessor's Office, Cook County Clerk's Office and the Cook County Recorder of Deeds, and the CDOE regarding historical environmental records for the Site.

Four records pertaining to environmental concerns were obtained from the Chicago Building Department, which could only provide a limited number of records based on the large number of requested locations. Requested locations were limited to the current Site buildings and the former gasoline filling station. The following is a summary of reviewed records pertaining to environmental concerns:

- The first two records were related to the installation of fuel oil tanks at 11500 S. Michigan Avenue. An application for Flammable Liquid Tank Permit was submitted on January 24, 1959 for the installation and enclosure of one 2,000-gallon and five 500-gallon fuel oil tanks used for heating. The application identifies that the tanks were installed below ground inside the 11500 S. Michigan Avenue building, and incased in concrete or brick with sand fill. The application does not indicate where the tanks were installed. The building permit for the installation was issued on March 18, 1959 and was given permit number 255365. Based on the presence of capped and sealed pipes in the basement of the House of Peace Christian Bookstore (located at 11500 S. Michigan Avenue) and information from the neighboring tenant who identified that tanks were removed from the basement of the building in the late 60s or early 70s.
- The third record was a permit for the installation of ventilation at Roseland Fair Cleaners, located at 11518 S. Michigan Avenue. The building permit for the installation was issued on March 13, 1959 and was given permit number 255043. Based on the current presence of Betty Brite Cleaners at the same address, a dry cleaning facility has operated at the Site since the late 1950s.
- The fourth record was a permit for 11521 S. State Street. The record only indicates that tanks were subject of the permit, which was issued number 123028. The date of the permit could not be identified on the record obtained from the Chicago Building Department. However, based on the former location of a former gasoline service station, listed at 11521 S. State Street, the permit is likely related to the installation of the USTs at the Site.

LFR submitted a request to the CDOE for all records related to USTs, hazardous materials spill or incidents, and any other environmental records available for all

potential locations historically or presently located at the Site. The following is a summary of records received pertaining to environmental concerns:

- A building permit (dated 3/1/55) was issued for 11521 S. State Street, listed as Cuter Sefer Oil, to Robert Young Inc. for the replacement of one 1,000-gallon gasoline UST. No other records were available for this address.
- Two building permits were issued for 11500 S. Michigan, listed as Oak Park National Bank. The first permit (dated 5/28/58) was issued to Fred Shirrow for the installation of two 315-gallon, one 1,000-gallon, and one 2,000-gallon fuel oil USTs, and an enclosure of five 315-gallon fuel oil USTs. The second permit (dated 3/18/59) was issued to Badger Heating for the installation of one 2,000-gallon and five 300-gallon fuel oil tanks. The second permit is the same permit received from the City of Chicago Building Department and described above.
- Two complaints were issued for the Site. The first, received on 9/12/96, was for the dumping of solids. The record indicates "fly dumping" was reported at Site; however, the city inspector was unable to ascertain the location of the "fly dump". The second complaint, received on 2/1/2000, was for a reported oil tank in the basement level of the House of Peace Bookstore. The record indicates that the entire basement was inspected but no oil tank was visible.

No recorded environmental concerns were discovered from the Cook County Assessor, Cook County Clerk's Office and the Cook County Recorder of Deeds.

Freedom of Information Act (FOIA) requests were sent to the Illinois Environmental Protection Agency (IEPA) Bureau's of Land, Air and Water, and the Illinois Emergency Management Agency (IEMA). The Office of the State Fire Marshal (OSFM) database of all registered USTs in Illinois was reviewed. No USTs were identified in a review of the database.

The IEPA Bureau of Land had files on record for the Betty Brite Cleaners. The files were related to the handling of hazardous waste from the facility. The records show that the IEPA notified the owner of the facility in 1988 indicating non-compliance for the handling of hazardous waste due to the lack of an annual report for the year 1987. The facility responded stating that a Generator Annual Hazardous Waste Report was never received. Subsequent files were related to the submittal of the facilities hazardous waste generator reports to the IEPA. No other facilities at the Site had files on record.

The Bureau's of Air and Water did not have any files on record for the Site.

IEMA did not have any records on file for the Site. An incident report for Triangle Transmission, listed at 35 W. 115th Street, was included with their response; however, this facility is located upgradient of the Site and is not anticipated to impact the integrity of the Site.

Copies of the data requests and the associated responses received are presented in **Appendix D.**

5.0 REGULATORY INFORMATION

LFR obtained and reviewed current regulatory agency databases to identify potential on- or-off-site sources of hazardous substances that could affect soil and groundwater quality at the Site. EDR, which compiles its information from a database of regulatory agency lists, provided current regulatory case file information to LFR. The databases were searched to cover the approximate minimum search distances specified in ASTM Standard Practice E 1527-00, *Phase I Environmental Site Assessment Process* (one-mile radius from the Site). The Site, as plotted by EDR, is 400 to 450 feet to the south of the approximate center of the Site; therefore, the following discussion of surrounding facilities is based on the corrected search radius. The complete EDR report is included in **Appendix E**.

5.1 Database Listing for the Site

A facility at the Site is listed on one of the databases searched by EDR:

Betty Brite Cleaners, located at 11518 S. Michigan Avenue, is listed on the Resource Conservation Recovery Information System (RCRIS) Small Quantity Generator of Hazardous Waste (SQG) database. A RCRIS-SQG generator is a facility that generates less than 1,000 kilograms of waste per month. Waste at the facility is primarily dry cleaning solvent, sludge from equipment cleaning and used filters. EDR does not list any violations on file for the Site facility for the RCRIS-SQG status, which is also listed on the FINDS database.

5.2 Mapped Database Records Search

None of the following databases had reported sites either on the subject property or within the applicable ASTM search radius around the subject property:

- National Priorities List Sites (NPL)
- Delisted NPL (NPL deletions) and Proposed NPL
- CERCLIS – No Further Remedial Action Planned (CERC-NFRAP)
- Resource Conservation and Recovery Information System (RCRIS)-Treatment, Storage and Disposal (TSD) Facilities
- Emergency Response Notification System (ERNS)
- State Solid Waste Facility and Landfill Facility (SWF/LF)
- Site Remediation Program (SRP)

- Surface Impoundment Inventory (IMPDMMENT)
- CERCLA (Superfund) Consent Decrees (CONSENT)
- Record of Decision (ROD)
- Hazardous Materials Information Reporting System (HMIRS)
- Material Licensing Tracking System (MLTS) – nuclear facilities
- Mines Master Index File (MINES)
- NPL Liens (NPL Lien)
- PCB Activity Database System (PADS)
- Department of Defense (DODs)
- US Brownfield's
- Formerly Used Defense Sites (FUDS)
- Uranium Mill Tailing Sites (UMTRA)
- Indian Reservations
- Resource Conservation and Recovery Act (RCRA) Administrative Action Tracking System (RAATS)
- Toxic Chemical Release Inventory System (TRIS)
- Toxic Substances Control Act (TSCA)
- Section 7 Tracking Systems (SSTS)
- FIFRA/TSCA Tracking System (FTTS)
- Illinois Solid Waste Landfill Inventory (IL NIPC)
- Sites with Engineering Controls (ENG CONTROLS)
- Coal Gas
- Institutional Controls

- Municipal Brownfields

The EDR report identified 33 facilities within one mile of the Site, that were listed on one or more databases: CERCLIS, RCRIS-LQG, RCRIS-SQG, CORRACTS, SHWS, LUST, UST, and CAT. Those facilities that are located more than $\frac{1}{8}$ mile from the Site are not anticipated to have an adverse impact on the Site, and are not discussed further. The Site, as plotted by EDR, is 400 to 450 feet to the south of the approximate center of the Site; therefore, the following discussion of surrounding facilities is based those within the corrected search radius. The following facilities are located within $\frac{1}{8}$ mile of the Site:

- Clark Service Station, listed 11555 S. Michigan Avenue, located adjacent to the Site to the east-southeast across Michigan Avenue, is listed on the UST and LUST databases. According to the databases, the facility had two 6,000-gallon and one 7,500-gallon gasoline USTs. In addition, the facility is reported to have a LUST incident related to a gasoline release (dated 9/5/91, No. 912512); however, the facility reportedly received a NFR letter (dated 1/9/95) with no restrictions. Based on the "closed" status of the facility and the estimated hydraulically downgradient location from the Site, the facility is not anticipated to impact the Site.
- Michigan Citgo, listed at 11600 S. Michigan Avenue, located approximately 400 to 500 feet to the south of the Site, is listed on the UST database. According to the database, the facility has one 6,000-gallon kerosene UST, two 12,000-gallon and one 15,000-gallon gasoline USTs currently in use. Based on the lack of a reported release from the facility, the distance from the Site, and the estimated hydraulically cross-gradient location from the Site, the facility is not anticipated to impact the Site.
- U.S. Scrap, listed at 391 East Kensington, located approximately 600 to 700 feet to the east of the Site, is listed on the SHWS and CAT databases. According to the databases, the facility is active in the Illinois EPA State Sites Unit. Based on the estimated hydraulically downgradient location from the Site, the facility is not anticipated to impact the Site.
- Curtis Elementary School, listed at 32 E. Michigan Avenue, located approximately 100 to 150 feet to the northwest of the Site across 115th Street, is listed on the UST database. According to the database, the facility has one 5,000-gallon heating oil UST last used in 1973 and listed as exempt. The facility is also listed on the RCRIS-SQG with no recorded violations for the facility. Based on the lack of a reported release and the lack of violations, the facility is not anticipated to impact the Site.
- Abandoned Gas Station, listed at 2 W 115th Street, located approximately 500 feet to the west-northwest of the Site, is listed on the UST, LUST, RCRIS-SQG databases. According to the databases, the facility has one 4,000-gallon gasoline UST last used in 1973 and listed as exempt. In addition, the facility is reported to have a LUST incident related to a gasoline release (dated 3/30/98, No. 980685). However, the facility has elected not to proceed with closure by submitting a Section 57.59(g)

Letter (dated 8/19/98), which suggests the reported release was not an immediate threat to human health or the environment as determined by OSFM during removal. In addition, no violations were reported for the facility as a RCRIS-SQG. Based on the potentially "closed" status of the facility and the nature of the subsurface soil of the Site vicinity, consisting of clay, the facility is not anticipated to impact the Site.

- Kensington Service Station, listed at 162 E. Kensington, located approximately 500 feet to the east of the Site, is listed on the UST, LUST, RCRIS-SQG databases. According to the databases, the facility had three 2,000-gallon gasoline USTs removed in 1983. In addition, the facility is reported to have an open LUST incident related to a gasoline release (dated 2/7/96, No. 960207). One violation was reported for the facility as a RCRIS-SQG related to generator record keeping requirements; however, compliance for the violation was reached in 1997. Based on the distance from the Site and the estimated hydraulically downgradient location from the Site, the facility is not anticipated to impact the Site.
- Triangle Transmission, listed at 35 W. 115th Street, located approximately 700 feet to the west-northwest of the Site, is listed on the UST, LUST, RCRIS-SQG databases. According to the databases, the facility had two 1,000-gallon gasoline USTs last used in 1973 and listed as exempt. In addition, the facility is reported to have an open LUST incident related to a gasoline release (dated 10/13/99, No. 992324). No violations were reported for the facility as a RCRIS-SQG. Based on the distance from the Site and the nature of the subsurface soil of the Site vicinity, consisting of clay, the facility is not anticipated to impact the Site.
- Calumet Coach Co., listed at 135 E. 115th Street, located approximately 500 to 600 feet to the east-northeast of the Site, is listed on the RCRIS-SQG database. No violations were reported for the facility as a RCRIS-SQG. Based on the estimated hydraulically downgradient location from the Site, the facility is not anticipated to impact the Site.
- Goodyear Tire & Rubber, listed 11442 S. Michigan Avenue, located approximately 600 to 700 feet to the north-northeast of the Site, is listed on the UST, LUST, RCRIS-SQG databases. According to the databases, the facility had one 500-gallon used oil UST removed from the facility in 1993. In addition, the facility is reported to have a LUST incident related to a used oil release (dated 4/30/96, No. 960704); however, the facility reportedly received a NFR letter (dated 1/27/98) with no restrictions. Based on the "closed" status of the facility and the estimated hydraulically cross-gradient location from the Site, the facility is not anticipated to impact the Site.

In addition, EDR listed six other sites (orphan sites) in the report, noting that records for these sites lacked adequate address information. These facilities were listed in the US Brownfield's, RCRIS-LQG, FINDS, CERC-NFRAP, LUST, and SHWS databases. None of these facilities present environmental concerns for the Site based on their distance from the Site.

5.3 Database Listings for Area Radon Information

According to the EDR report, the Site is located within Cook County and is classified Zone 2. Within Zone 2, the average indoor radon concentration levels range from 2 to 4 pico curies per Liter (pCi/L). The U.S. Environmental Protection Agency's Action Level for radon gas is 4.0 pCi/L.

5.4 Federal and State Database Listings for Water Supplies

The EDR Federal and State Databases did not identify any public water supply well located between ½-mile and 1-mile from the Site.

The Federal Database reported 16 wells located between ½-mile and 1-mile of the Site, which were identified as groundwater monitoring wells. The State Database reported one water well within one-mile radius of the Site. However, it is unlikely this well is used for potable purposes because water is supplied to City residents via the MWRDGC.

6.0 SUMMARY AND CONCLUSIONS

LFR has performed a Phase I ESA in conformance with the scope and limitations of ASTM Practice E 1527-00 and the LFR Scope of Work for the property identified as Roseland Plaza located at the intersection of 115th Street and Michigan Avenue, Chicago, Cook County, Illinois.

Based on the information available at the time of this assessment, the following is a summary of key findings:

- The Site is comprised of an irregular tract of land approximately 5 to 6 acres consisting of 14 separate parcels. The Site consists of three separate building structures built in the 1950's and used for commercial businesses, undeveloped land, and asphalt driveway and parking areas.
- The Site was initially developed prior to 1897 and has always been used for residential/commercial purposes including, but not limited to the following businesses:
 - Reading Coal Company as a coal storage yard (prior to 1897 to the 1940s),
 - Chicago and Riverdale Lumber Company as a lumber storage yard (prior to 1897 to the early 1980s),
 - A gasoline service station and auto body repair and paint shop (sometime after 1911 to the late 1950s),
 - DVM Wood Products as a sash and door facility (sometime after 1939 to the late 1950s), and
 - Betty Brite Cleaners as a drycleaning facility (from the late 1950s to present).
- Betty Brite Cleaners located at 11518 S. Michigan Avenue, is listed as a small quantity generator of hazardous waste. No violations were reported for this facility. However, the general housekeeping practices of the facility were observed to be of fair to poor condition. Dark staining was visible on the concrete floor, which was in fair to poor condition with visible cracks in the general vicinity of the drycleaning machines and hazardous waste storage drum. In addition, an open floor drain, which reportedly discharges to the sanitary sewer, was visible on the concrete floor adjacent to the drum and drycleaning machines.
- Suspect UST vent and fill pipes were observed at the Site in various facilities. According to the City of Chicago Building Department records, 10 USTs were installed at the Site in the late 1950s. A historic gasoline service station located at the Site is shown by Sanborn Maps to have three USTs, of which one 1,000-gallon

gasoline UST was replaced in 1955. In addition, a former commercial building located adjacent to the Site to the north of the alley was shown to contain UST(s). Records maintained by the City of Chicago Building Department and CDOE do not indicate that these potential USTs were removed from facilities at or adjacent to the Site. However, an unknown number of USTs were reportedly removed from the basement of the House of Peace Christian Bookstore (former Oak Park National Bank), located at 11500 S. Michigan Avenue, in the 1960s or 1970s.

- LFR observed the presence of miscellaneous dumping, including numerous empty 5-gallon buckets, used tires, furniture, construction debris, and telephone poles, along the southern portion of the Site. A large, slightly depressed area that contained numerous pieces of coal, slag, and cinders was also observed in this area, which historical contained coal storage sheds and a railroad spur.
- Significant water and mold damage was observed in the basement of the House of Peace Christian Bookstore located at 11500 S. Michigan Avenue.

LFR has identified the following RECs based on the data obtained during the Phase I investigation:

- A drycleaning facility that has operated at the Site for approximately 25 years.
- The presence of an unknown number of potential UST(s) at the Site and an adjacent facility.
- The presence of illegal dumping areas, which include an area of coal, slag, and cinders.
- The potential presence of asbestos containing materials on Site.

MEMORANDUM

To: Karen Forté
Department of Planning and Development

From: Dave Graham, P.G. *Dave Graham*
Department of Environment

Date: December 6, 2004

RE: 115th and Michigan - Roseland Plaza Area A
Phase I Environmental Site Assessment

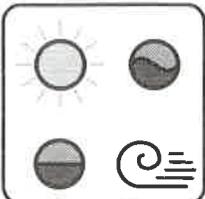

The Department of Environment (DOE) has completed the Phase I Environmental Site Assessment (Phase I) for Area A. Attached is a copy of the final report. The following is a summary of the report and recommendations.

The DOE's environmental consultant, Levine Fricke (LFR) conducted the Phase I for this property, which includes a site inspection and review of regulatory environmental databases. Several Recognized Environmental Conditions (RECs) were observed at this property.

- 11518 S. Michigan has been a dry cleaner for approximately 25 years; there is a concern about general housekeeping of process chemicals.
- Numerous suspect locations of underground storage tanks (USTs) were identified.
- 11521 S. State was historically a gas station and 3 USTs are suspected to still remain on this property.
- A coal storage company operated on a major portion of this site during from 1897 until 1940's.
- Several buildings have suspect asbestos containing materials.
- Fly-dumping was observed on this property.

DOE recommends that a limited Phase II ESA is conducted on this property to determine if RECs have impacted the property's soil and groundwater. The Phase II should also include sampling of suspect asbestos containing material, a lead based paint survey and a volume estimate of such material. This work will confirm if RECs are present and provide information to estimate any potential costs during redevelopment. Additional funding required for these tasks are estimated at \$30,000 and include field work, laboratory analysis and professional services. Feel free to call me at 744-3639 if you any questions.
